

# Printing from Macintosh

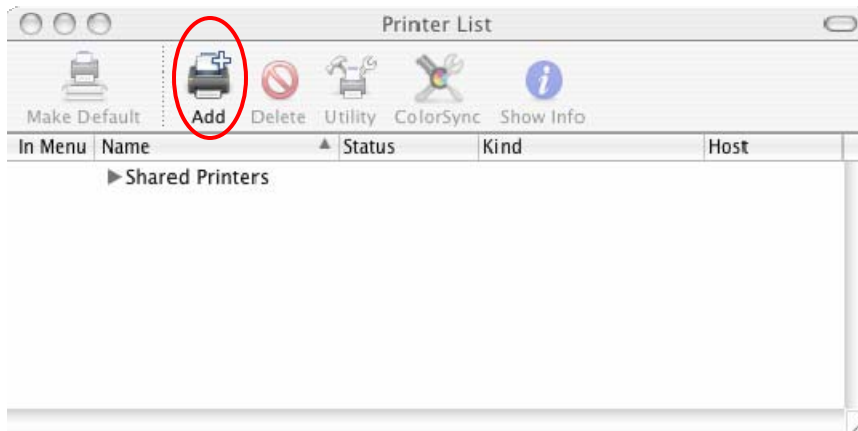

1. Go to System Preferences

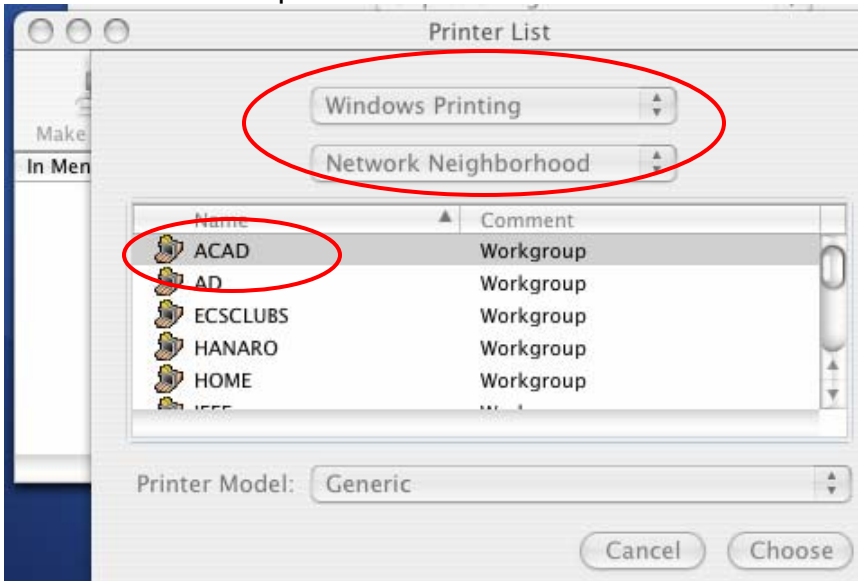

2. Click on "Printer & Fax"

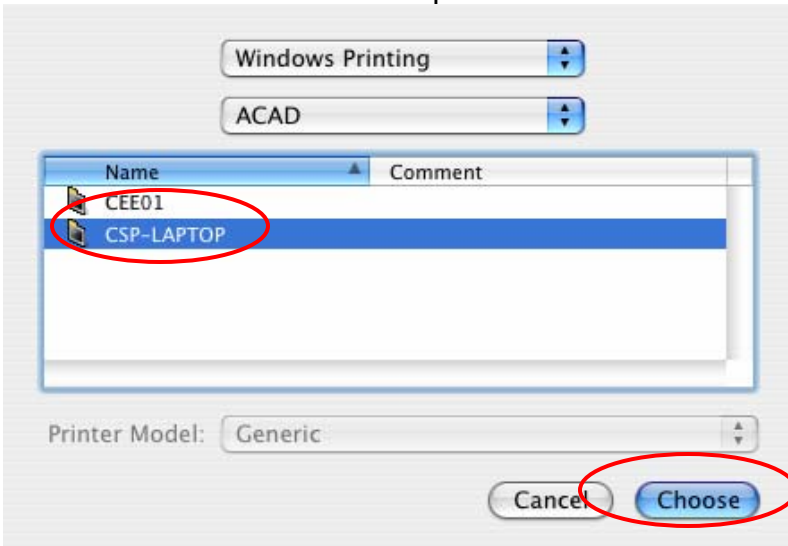

3. Click on "Add" button.

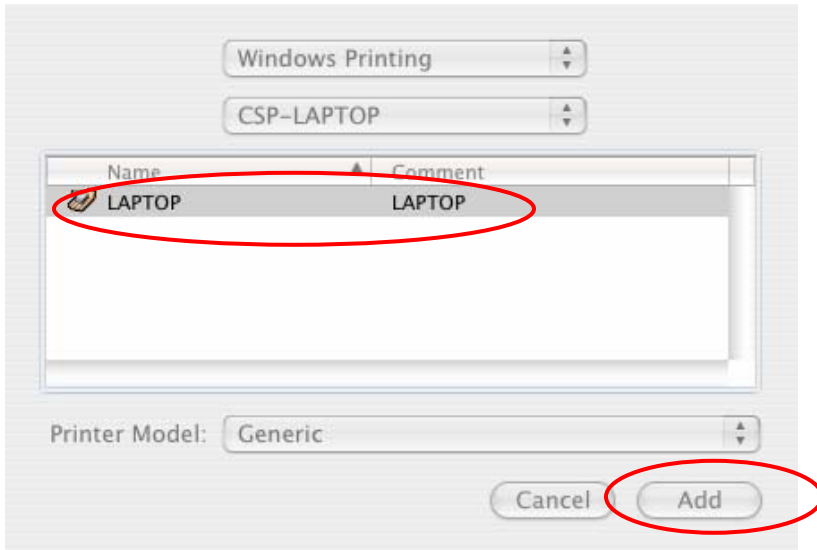

4. Select “Windows Printing” and “Network Neighborhood” from dropdown box, select “ACAD” and push “Choose” button.

5. Select “CSP-LAPTOP” and push “Choose” button.

6. Select "LAPTOP" and click on "Add" button.

7. Printer is now installed and shows up in print box. Student can highlight it and select "Print" in the future; this step only needs to be down once to install the printer.
