CSU Eligibility Index

To calculate your eligibility index from your old SAT score: Multiply your GPA by 800. Add that total to your old SAT score (Critical Reading and Mathematics only). To calculate your eligibility index from your new SAT score: Multiply your GPA by 800. Add that total to your new SAT score (EBRW and Mathematics only). To calculate your eligibility index from your ACT score: Multiply your GPA by 200 and add that total to 10 times the ACT composite score. Formulas are below:

**SAT (old):** \((\text{GPA} \times 800) + \text{SAT Critical Reading} + \text{SAT Mathematics} = \text{CSU Eligibility Index}\)

**SAT (new):** \((\text{GPA} \times 800) + \text{SAT EBRW} + \text{SAT Mathematics} = \text{CSU Eligibility Index}\)

**ACT:** \((\text{GPA} \times 200) + (\text{ACT Composite} \times 10) = \text{CSU Eligibility Index}\)

Note: High school GPA is calculated using only the grades from A-G courses in the 10th, 11th and 12th grades.

**Financial Aid**

Cal State Fullerton offers an array of financial aid, including federal and state grants, scholarships, and student loan programs.
