2007 - 2008

Through its teaching, scholarship, and service mission, the College of Health and Human Development provides students with an education that contributes to their intellectual, personal, and professional development. Emphasis is placed on both theory and practice, with special attention to the development of critical thinking and humanistic skills needed to function in a widely diverse and ever-changing society. Programs in the college lead to traditional academic degrees at the baccalaureate and graduate levels, as well as to a variety of specific certificates, credentials and licenses.

The College of Health and Human Development is organized into the following departments: Child and Adolescent Studies, Counseling, Health Science, Human Services, Kinesiology, Military Science, and Nursing.

Majors:

- ◆ Child and Adolescent Development B.S.
- ◆ Health Science B.S.
- ◆ Human Services B.S.
- ◆ Kinesiology B.S.
- ◆ Nursing B.S.
