2007 - 2008

College of the Arts

The Department of Art is accredited by the National Association of Schools of Art and Design.

The Department of Art offers programs which include the scholarly fields of art history, theory, analysis and criticism; the studio fields of drawing and painting, entertainment art/animation, printmaking, sculpture, crafts (including jewelry, wood and metal), ceramics (including glass), graphic design, creative photography, illustration, and exhibition design; and the single subject teaching field of art education.

Curricular plans for the Bachelor of Arts and the Bachelor of Fine Arts have been developed to meet the individual needs and interests of students in art.

The general objectives of the programs are to provide a comprehensive learning environment which contributes conceptually and technically to the development of the art historian, the visual artist and the art teacher. Specifically, the programs provide opportunities for students to: (1) develop a knowledge and understanding of fundamental visual experience and concepts basic to many forms and fields of art; (2) develop a critical appreciation of historical and contemporary art forms as they relate to individual and social needs and values; (3) creatively express one's personal experience and thought with visual skill and clarity; (4) develop knowledge and skills necessary to pursue graduate studies in visual arts, or to teach art and (5) develop the understanding and expertise applicable to professional practice.

Majors:

- ◆ Art B.A.
 - ◆ Art History Concentration
 - ◆ General Studio Art Concentration
 - ◆ Teaching Concentration

Please see ASSIST.org for your college articulation
