Subject: Final Date for Grade Changes and Receipt of Transfer Transcripts for Fall 2014 Degree Candidates

The final date for receipt of transfer transcripts and for recording grade changes for January 5, 2015 candidates for graduation will be Friday, January 30th. This includes changing marks of Report in Progress (RP) and Incomplete (I) to grades, as well as grade changes that will affect a student’s honors designation. It is assumed that the student has completed all work by January 5, 2015. This extended deadline is for paper processing purposes only. If a student completes work after the January 5th official graduation date, he/she should be instructed to update his/her candidacy to the next term.

This processing deadline will allow for timely completion of the official graduation lists and early notification of successful candidates for both the bachelor and master degrees. Due to the requirement that we submit our report of degrees conferred to the Chancellor’s Office, this deadline is a firm one that cannot be extended to include on the official graduation lists candidates whose problems are late in clearing or to change someone’s graduation with honors designation.

There has been an ongoing problem for many semesters where changes of grade forms are received in the Records Office long after official reporting to the Chancellor’s Office is completed and after diplomas have been ordered and, in some cases, issued. If you will assist us by questioning such requests when the grade change forms cross your desk, we may avoid these difficult and potentially embarrassing situations.

Please inform your faculty and staff members of the January 30th deadline so that they will be aware of the CSU system-imposed limitations. This will ensure that we may respond consistently to questions while avoiding unnecessary delay in the conferral of anyone’s degree.
