ELAPSED TIME, TOTAL UNITS, AND TRANSFER UNITS TO DEGREE BY STATUS AT ENTRY AND COLLEGE  
AVERAGE YEARS AND UNITS TO DEGREE - 1996-97 THROUGH 2009-10

Note: There are no undergraduate degrees awarded within the College of Education.

The university-wide total for students who started as first-time freshmen, 20,599 is two more than the cumulative total of the seven colleges (20,597). Additionally, the university-wide total for students who started as upper division transfers, 49,008 is two more than the cumulative total of the seven colleges (49,006). These four students had special interdisciplinary majors and therefore did not graduate from a particular college. However, these four were included in the university totals of graduates who started as first-time freshmen or upper division transfers.

Notes: Since summer 1996, a total of 74,859 students received a bachelor's degree from CSUF. Out of this total, 11 students did not have a valid admission status and/or year-term of matriculation on file. These 11 cases (two from ARTS, two from MCBE, one from COMM, three from HHD, three from H&SS) have been excluded from all analyses.

There are differences across the seven colleges that award bachelor degrees in minimum required units to degree. Additionally, minimum required units to degree for some majors were reduced effective January 2002 and again for others in January 2005. It is important to keep these facts in mind when comparing across colleges.

**ARTS** - BA programs (i.e. Art History, Dance) were changed from 124 to 120 units in January 2002. BFA and BM programs stayed constant with a minimum of 132 units required.

**MCBE** - Economics changed from 124 units to 120 units in January 2002; all other programs changed from 124 units to 120 units in January 2005.

**COMM** - All programs changed from 124 units to 120 in January 2002.

**ECS** - Computer Science changed from 131 to 124 in fall 2006; Mechanical Engineering changed from 135 to 137 units in 2005; Computer Engineering was added as a major in 2004 and requires 129 units; all other Engineering degrees changed from 135 to 129 units in 2005.

**HHD** - All programs except nursing changed from 124 minimum units to 120 units in January 2002. Nursing stayed at 124 units until an increase to 127 in fall 2008.

**H&SS** - All programs changed from a minimum of 124 required units to 120 units in January 2002.

**NSM** - In January 2002, all but two programs changed to 120 units. At that time, the B.S. in Chemistry, stayed at 124 and Geology remained at 132 units. In January 2005, all programs in NSM changed to 120 minimum units.
