PLEASE SEE NOTES ON PAGE FOUR.

NOTES

Full-time students are defined as taking 12 or more units for both undergraduate and graduate/postbaccalaureate students.

Undergraduates and Grads/Postbacs: Undergraduates are defined as all those working toward a first baccalaureate degree. Grads/Postbacs are defined as all those who have already earned a baccalaureate degree.

Grads/Postbacs could be enrolled in any of the following ways:

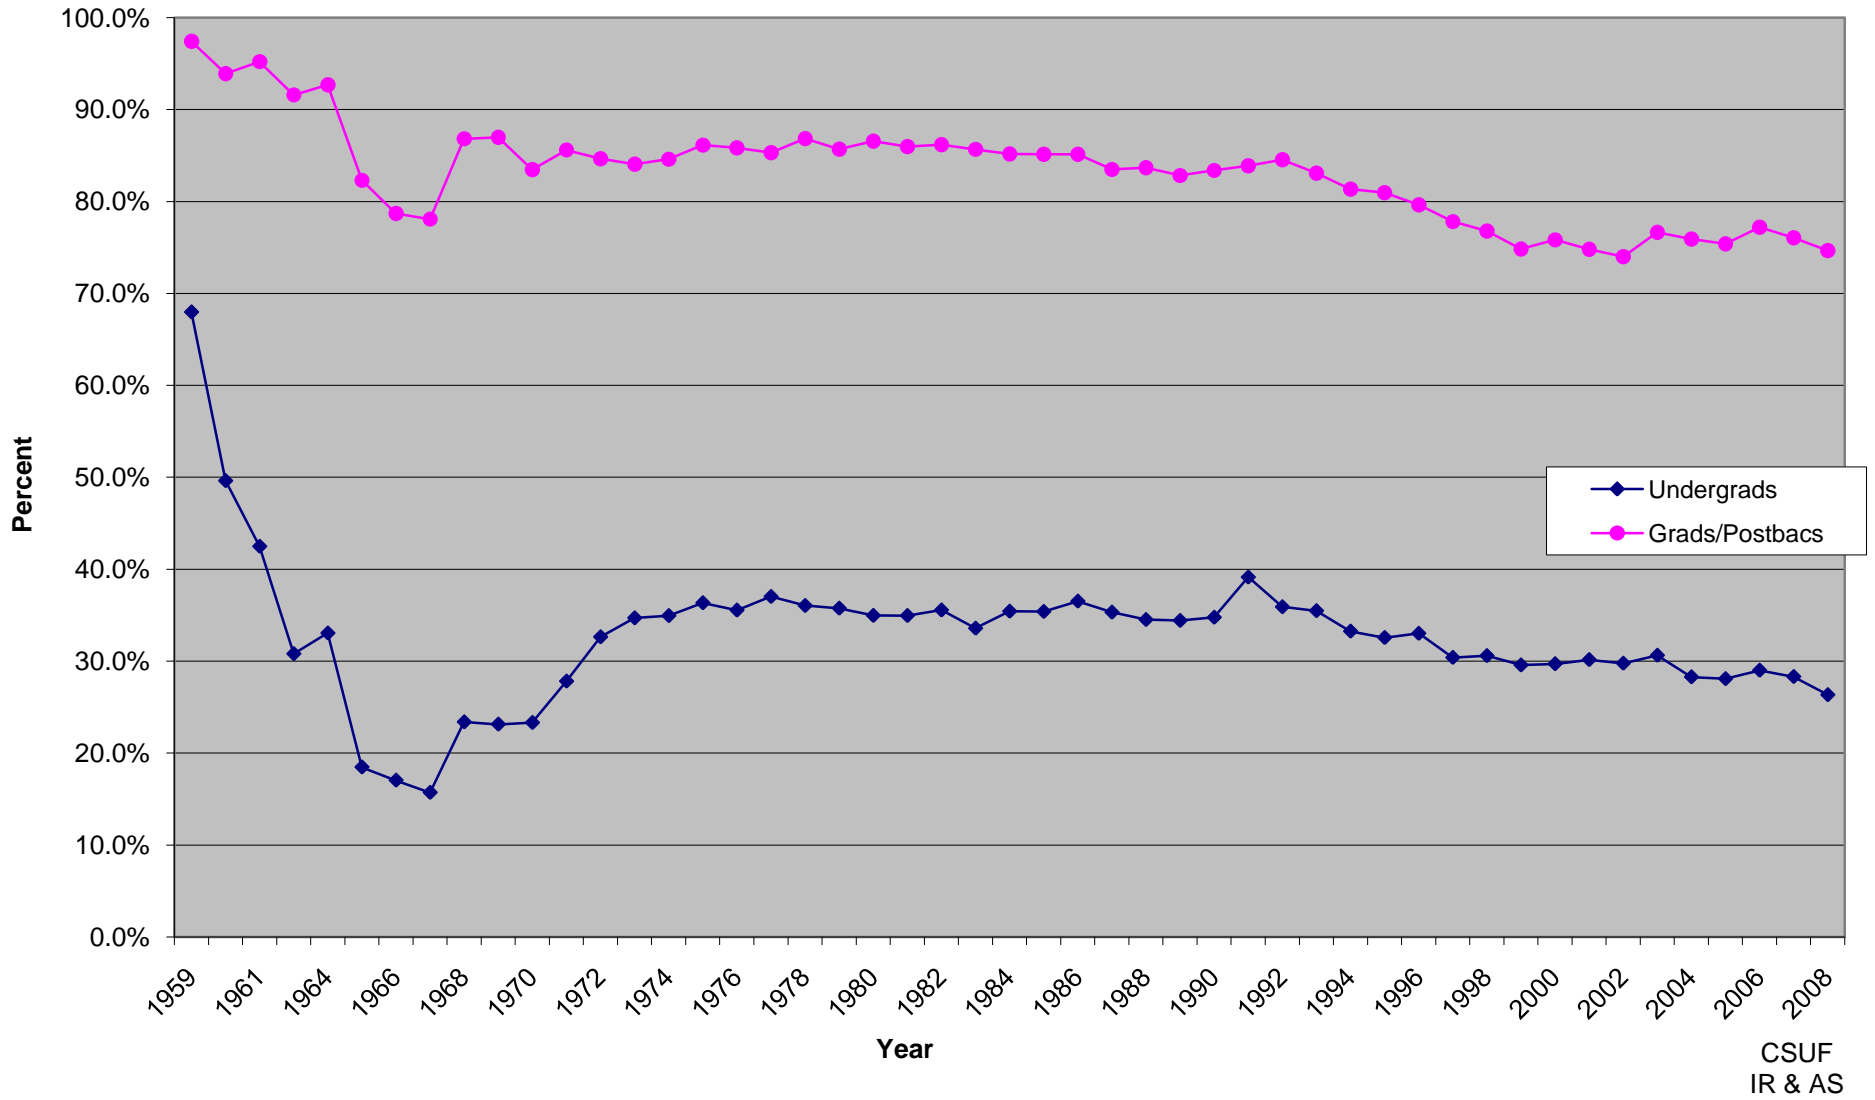

- Second baccalaureate program
- Undeclared Postbac
- Postbac credential program (i.e. teaching credential)
- Graduate Program (Master's degree)

All data was derived from either the 1.01 table of the statistical handbook of the indicated semester or from the Statistical Report of the California State Colleges, Part D: Academic Year Summary for the indicated semester.

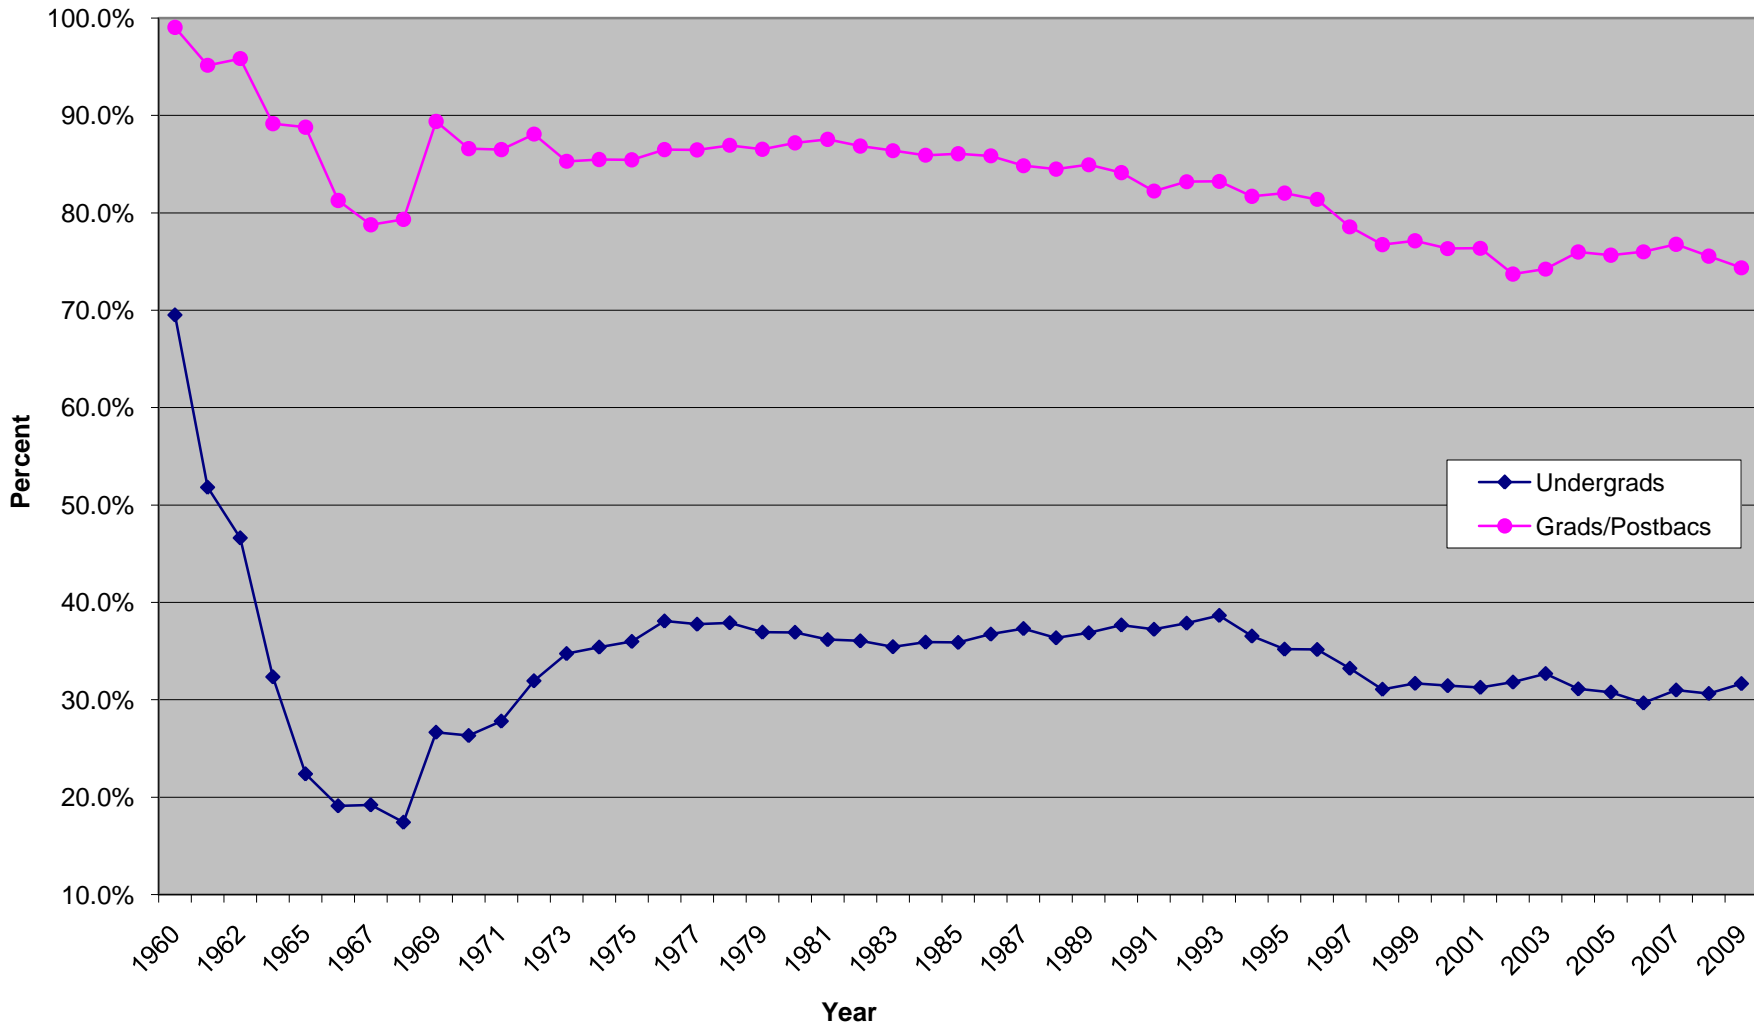

*Indicates that during specified years there was a group of students that were categorized as "unclassified." These students are neither undergrad nor grad/postbac students and are not included on this table. All of these students were enrolled part-time. The number of students during these semesters will not add up to the total headcount for the semester. In Fall 1959, there were 174 unclassified students. In Spring 1960, there were 12 unclassified students. In Spring 1963 there were 9 unclassified students. It is not clear from the data archives why some students were "unclassified." The percents given are based on the sum of the given full-time and part-time numbers and are therefore accurate.

◆ Fall 1982: Indicates that data was taken from a table other than the 1.01 statistical handbook table for that semester because the 1.01 was wrong. This information was taken from the 2.42 statistical handbook table.
