2010	405	144	5.34	7706	2788.6	5.43

* Totals for Regular State Support and Extended Education Regular Credit Matriculants come from official census counts that are reported to the Chancellor's Office. Totals shown in X1.01 and X2.79 tables may not exactly match totals here because of post-census changes to the data files. Totals for summer regular state support always match across different tables. In the years where Summer Regular State Support exists (2001/02 onward with the exception of 2004/05), Extended Education Regular Credit Matriculants are matriculants in Special Sessions only. No summer regular state support was offered in 2004 due to state budget restrictions.
