Electronic permits will be placed in the system as soon as possible.
Once the student is issued a permit, they will be notified via email. They must then remove themselves from the waitlist (if applicable) and remove the class from their shopping cart (if applicable).
They must then search for the class via the 5-digit schedule number listed above, add it to their shopping cart, and then proceed with the normal enrollment process.

Please note that permits expire within a day of issue, so please complete the process as soon as possible.
