(Continue Step 8 Pic)

The screenshot shows the 'TimeClock Plus' settings page on a mobile device. At the top, the status bar shows 89% battery and 9:22 AM. The app title 'TimeClock Plus' is in a green header. Below it, there are several settings sections: 'Geolocation timeout' set to 5 (with a note 'Requires license'), 'Sync offline data' set to 'Once a week', 'Select Company' set to 'CSU Fullerton ASC (Pro)', and an empty 'ID/Badge Number' field. A blue 'Submit' button is below the ID field. At the bottom, there are three buttons: 'Change Server Settings' and 'Kiosk Mode' in white, and a greyed-out 'Kiosk Mode' button.

Default Page

The screenshot shows the 'Default Page' of the TimeClock Plus app. The status bar shows 88% battery and 9:22 AM. The date and time '11/14/2016 09:22:48 AM' are displayed, along with the status 'STATUS Clocked in at 07:58 AM'. There are four main action buttons: 'CLOCK IN' and 'CLOCK OUT' in blue, and 'START BREAK' and 'END BREAK' in green. Below these is a 'CHANGE JOB CODE' button. At the bottom, there are five menu items: 'View Hours', 'View Last Punch', 'View Accruals', and 'View Messages', each in a white button with a grey border.
