

Lactation Program

CSUF is committed to providing faculty, staff, students, visitors and job applicants with a private, secure, convenient and sanitary space to use for lactation. They are “Rejuvenation Spaces” and they are shielded from intrusion from others. At a minimum, the Rejuvenation Spaces will contain a comfortable sofa or chair, access to electricity, and a table near or attached to a chair that will support a lactation pump. Mothers expressing milk are expected to make their own arrangements for refrigeration, including sealed containers and proper storage.

I. Nursing mothers who work

Employers must provide a “reasonable break time” for nursing mothers to express milk for up to one year after their child’s birth. The frequency and duration of the breaks will vary depending on a number of factors. The time necessary to express milk includes, among other things, the time walking to and from the Space, retrieving of and setting up a pump or other supplies, washing and cleaning the pump or other supplies and storing milk.

Supervisors and managers are reminded to take necessary steps (e.g., revising staff break schedules) to ensure that normal business operations are not unreasonably disrupted as a result of providing breaks for nursing mothers to express milk.

Nursing mothers who plan to express milk while at work, prior to their return from maternity leave, need to first contact their Human Resources (HRDI or HR) or Benefits department to discuss guidelines for expressing milk during working hours. After HR has been contacted, the employee should contact the WoMen’s Center at (657) 278-3928 for information on scheduling a Space. Nursing mothers are responsible for notifying their direct supervisor/manager if they use any additional time beyond their usual break or meal times.
