“When the cook tastes the soup, that’s formative; when the guests taste the soup, that’s summative.”

Quotes from the Frontline
Assessment is for accreditation

Assessment infringes upon academic freedom

“Assessment shall be intentional, ongoing, timely, student-centered, program-controlled, collegial, respectful of diversity and academic freedom, integrated, and institutionally supported.”
(UPS 300.022)
Assessment is just another way to evaluate faculty performance

Our curriculum addresses all the desired learning outcomes
Our students completed/participated in
_(awesome activity)_

We grade students all the time
We have an assessment plan

We assessed this five years ago
Assessment is too much to handle

We cannot fit everything into our signature assignment (thesis, paper, presentation, etc.)
Using rubric is very time consuming

We cannot afford commercial tests/surveys
Assessment is hard for us -
Stats are not our thing

We cannot trust assessment results because the
process is not as rigorous as research
We have an assessment coordinator... or a chair

"Assessment shall be intentional, ongoing, timely, student-centered, program-controlled, collegial, respectful of diversity and academic freedom, integrated, and institutionally supported."
