College of Health and Human Development

Advancing human health, development and well-being
The mission of the College of Health & Human Development is to provide exemplary education, research, and community outreach related to human health, development, and lifelong well-being. Emphasis is placed on both theory and evidence-based practice, with special attention to the development of critical thinking, leadership, and professional skills needed in a global society.

MISSION

Scott Lynn, associate professor of kinesiology, inside the CSUF College of Health and Human Development’s Biomechanics Laboratory.
DEPARTMENT

SOCIAL WORK
165 Students
Prepares students for direct social work practice with vulnerable children and families in diverse environments. (M.S.W.)
