Conversion Activity

Dwelling units added or deleted from housing stock due to conversion. This includes both units lost and gained to different structure types. For example, SFD to Duplex, non-residential structure to residential use, or residential structure to nonresidential use.

Accessory Dwelling Unit (ADU) creation through repurposing of existing space is Repurposed Activity, not conversion. Starting with the 2022 HAR and consistent with CA DOF's revised instructions, conversion of the primary structure when a connected ADU is added will no longer be reported to be consistent with U.S. Census Bureau housing type definitions.

Repurposed Activity

Includes existing space that is converted into an ADU. All ADU_R and JADU activity falls under repurposing activity.

May include conversion/ repurposing of existing detached structures to a detached ADU, e.g., detached garage converted to ADU-Detached.

An SFD's attached garage repurposed into an ADU will either be an ADU_R (Repurposed ADU) or JADU (Junior ADU).

Notes:

¹Jurisdictions with net loss are not included in calculation of share of county growth.

This table shows the net activity for each jurisdiction of conversion and ADU repurposing activity.

These units have been completed or finaled through building finals, certificates of occupancy, or utility releases.

These data are not the number of building permits.

Data was collected from all 35 Orange County jurisdictions. Jurisdictional boundaries are as of January 1, 2022.

NA- Attached ADUs are only new construction through additions to existing structures.

Total converted/repurposed ADU net activity 2022: 272
