DARS History and Present

- DARS (Degree Audit Reporting System) was developed by Miami University and is implemented on over 200 colleges and universities.
- DARS was acquired and implemented at Fullerton in Fall 1999.
- Implementation of scanning transcripts project (OCR) allowed automated posting of transfer courses to DARS.
- All undergraduate majors and minors degree requirements have been encoded into DARS.
- DARS Degree Audit report (TDA) is available to all students via TITAN Online.
- DARS Degree Audit report (TDA) is also available to faculty and staff through SIS+.
- TDA is an evaluation tool used for the determination of admissions and completion of graduation requirements.
DARwin Implementation Project

- As a part of CMS implementation, the decision was made to keep DARS and interface it with PeopleSoft (PS), the approach that was also taken by other CSU campuses like Fresno, Northridge, and San Bernardino.
- DARwin (client/server version of DARS) software was purchased and is in the process of being implemented.
- DARS mainframe data has been converted to the DARwin structure and is in the testing phase.
DARwin Implementation Project

- **Implementation Timelines:**
  - Phase I - DARwin interfaced with SIS+ will go-live Fall 2007
  - Phase II - DARwin interfaced with PeopleSoft will go-live April 2008
  - Phase III – DARwin – Interactive Degree Audit - targeted for go-live at the end of 2008
DARwin Implementation Project

- **Phase I - DARwin interface with SIS+**
  - No changes in TDA functionality or presentation
  - Seamless access by students via TITAN Online
  - Access by faculty/staff via faculty/staff portal
  - Access to TDA by faculty/staff directly from SIS+ will be disabled
  - Demo to Focus group of advisors

**Welcome To The TITAN Degree Audit (TDA)**

California State University, Fullerton (CSUF) has developed the TITAN Degree Audit (TDA) to enhance student advisement. In 1997, the Office of Admissions and Records began setting up the requirements of the undergraduate degree programs, including major, minor and general education, in the TITAN Degree Audit program. This program will produce reports that inform CSUF students and advisers of the completion status of degree requirements. At the present time, while the project is in its early stages of implementation, there will be students whose TITAN Degree Audits will not include all their transfer coursework. While we encourage you to try out this new program and hope that you find it a useful tool in planning for your coursework, we ask that you verify with an adviser whether or not your TDA accurately reflects all your coursework. To find out more about which transfer coursework is in the degree audit system, click here.

  Student Access – Titan Online

Candidates for Graduation (Those Who Have Graduation Checks)

Your TDA may not reflect modifications that have been approved by your major advisor or the graduation evaluator. Candidates should refer to the Graduation Check for final degree requirements. Questions regarding these requirements should be addressed to your major advisor or the graduation evaluator located in LH-114.

Recent Graduates

Once your degree has been recorded online, you will no longer be able to access your TDA. To verify your graduation status, please view your unofficial transcript in TITAN Online.

To continue, press Continue with the Degree Audit

BACHELOR OF ARTS
PSYCHOLOGY

********AT LEAST ONE REQUIREMENT HAS NOT BEEN SATISFIED**********

This TITAN Degree Audit (TDA) is provided to help you keep track of your progress toward a degree. Although efforts have been made to ensure its accuracy, you must carefully review it and report any errors to the Evaluations Unit (714-278-2396) or TDA Staff (tda@fullerton.edu). You are responsible for consulting a major adviser to verify the status of major requirements. If you have a Final Evaluation & Summary of Units, please use it together with this TDA. Final verification for graduation is based on your Graduation Check.
