

Be responsible!

Cite sources properly. Be a responsible Titan Scholar.

For many students the most frustrating part of writing a paper occurs when they try to **cite sources**.

It takes time to collect, organize, and use research properly, and it can be difficult to decide upon the exact format required to cite specific materials.

To be a responsible Titan Scholar, learn **why** you need to cite sources, **what** to cite, **when** to cite, and finally, **how** to cite.

Find out what every student needs to know about our university policies, strategies for maintaining integrity in and out of the classroom and much, much more by visiting our website:
