CSUF Procedure Reporting Findings/Determinations of Harassment or Sexual Assault As Required by NSF/NIH Policy

Background

Effective October 21, 2018, the National Science Foundation (NSF) requires all awardee organizations to notify NSF of any findings/determinations of sexual harassment, other forms of harassment or sexual assault by any NSF-funded Primary Investigator (PI) or co-PI. It is NSF policy that all personnel supported by an NSF award must conduct themselves in a responsible and accountable manner during the award performance period, whether at the awardee institution, on-line, or outside the organization, such as at field sites or facilities, or during conferences and workshops.

The National Institutes of Health (NIH) has also recently reinforced similar policies, guidelines, requirements, and communications to make its expectations clear to the NIH workforce and NIH-funded organizations, and to take appropriate actions within their authority. NIH strives to ensure that individuals know their rights, where to report incidents of sexual harassment, and the resources available to them.

Procedures

In order to comply with NSF/NIH’s requirements regarding findings of harassment or sexual assault, CSUF’s Office of Research and Sponsored Projects (ORSP) adopts the following procedures for all new awards, or any funding amendment to an existing award, made on or after October 21, 2018:

- Upon receipt of new Award Notice from NSF or NIH, the Office of Grants and Contracts (OGC) will notify the PI, Office of Sponsored Programs (OSP), and the Research Compliance Office within the ORSP. The Research Compliance Office will forward the new Award Notice, which lists the PI and co-PI along with the duration of the project period, to the campus Title IX Coordinator and the Discrimination Harassment & Retaliation (DHR) Administrator.

- During the project period, OSP (a unit within the CSU Fullerton Auxiliary Services Corporation) will monitor progress of the project, will notify AVP-ORSP and Research Compliance Office if there are any PI or co-PI changes, and will provide information on new PI or co-PI. The Research Compliance office will forward the updates to the campus Title IX Coordinator and DHR Administrator.

- The Title IX Coordinator and DHR Administrator each shall inform the Associate Vice President for Research and Sponsored Projects if there has been a finding or determination
of sexual harassment or other form of harassment under CSU policies against the PI or any co-PI identified in the NOA.

- The Title IX Coordinator and DHR Administrator will maintain a list of the PI and co-PI during the funding duration of each award. Should any PI or co-PI be found responsible for sexual harassment, other forms of harassment and/or sexual assault during a project (after the initial screening at the time of the NOA), the Title IX Coordinator and/or DHR Administrator will notify CSUF AOR, the Associate Vice President for Research at ORSP.

- Notifications must be submitted from the AOR by completing the following as required by sponsors:
  1. NSF Awards: [Organizational Notification of Harassment Form](https://www.nsf.gov/od/odi/notification_form.jsp)
  2. Notifications must be submitted within 10 business days from:
     - The date of the finding/determination or
     - Placement on administrative leave or
     - Imposition of administrative action
  3. NIH Awards: As encouraged by NIH, AOR will report the findings to the appropriate authorities, which may include the local police department or to the appropriate campus division. CSUF HRDI.
**ACRONYMS**

**ORSP:** The Office of Research and Sponsored Projects (ORSP) works with other units throughout the campus to seek external support for faculty research, creative activities and institutional projects that support the educational and service mission of the university. Collaboration is sought across disciplines, departments and community partners in preparing proposals to federal, state and private agencies.

**OGC:** The Office of Grants and Contracts (OGC) assists with proposal preparation, review and timely submission of proposals to external funding agencies, and appropriate training related to these functions; assures proposal compliance with funding sponsor and regulatory agency requirements; serves as the lead in reviewing grant awards and in the issuance, review and negotiation of con-tracts, subcontracts and related agreements. It provides oversight of the university’s proposal review and approval process, maintains data and prepares all necessary reports on proposal submissions.

**OSP:** The Office of Sponsored Programs (OSP) furthers Cal State Fullerton’s educational, research and community service mission by facilitating research (extramural and intramural) and other projects that enrich the scholarly endeavors of faculty and students. It primarily assists CSUF faculty and staff in developing and administering funded projects. OSP also ensures responsible stewardship of sponsored funds to guarantee efficiency and cost effectiveness in Auxiliary Services Corporation operations. All procedures and actions are designed to conform to federal and state laws and regulations, CSU, University and Auxiliary policies.
