

Want Experience?

An opportunity in Placentia is available. Students are wanted to draw up plans for a 'Guest-house' type structure.

They will need everything necessary get a permit to build the structure.

The structure will be a detached, approximately 700 sq. ft., 2 bedroom 1 bath unit.

Zoning is R-1. As far as I have been able to determine it is a do-able project as far as the codes are concerned.
