“Technology & Environment: Changing the Landscape of Civil Engineering”

Join the ECS *Affiliates* on Tuesday, April 11, 2006 for an informative and entertaining presentation by Fuscoe Engineering's Pat Fuscoe and Ian Adam. Their talk will focus on how civil engineering firms utilize recent technological advances to create 3-d graphics and fly-through simulations that assist in communicating how a project will look and feel in its built condition. In addition, they will demonstrate how sustainable design elements are being advanced as a result of recent environmental regulations and how they are utilized within the technologically driven LEED process.

Seating is limited so contact Maryanne Horton at 714-278-5466 or email mhorton@fullerton.edu to reserve your place today.

Tickets: \$10 for non-members - Free for *Affiliates* Members
Registration: 7:00 a.m. - Program: 7:30 a.m. to 9:00 a.m.
