Dean, College of Engineering & Computer Science

Cordially Invites You to An  
ECS Affiliates Technology Breakfast

**In-Flight Entertainment:  
Avionics or Consumer Electronics?**

We've come a long way since the first 16mm, 30-inch reel in-flight film system of the 1960s! Today's savvy travelers expect multi-channel entertainment, crystal-clear digital audio/video and an endless variety of high-tech diversions, not to mention uninterrupted access to information and communications technology. Join the Affiliates of the College of Engineering and Computer Science for an entertaining and informative presentation on current state-of-the-art in-flight entertainment and communications technologies...and what lies ahead...

Tuesday, September 13 - 7:30 a.m.  
Fullerton Marriott at CSUF

Students Sponsored by *Disneyland Resort*
