

**INDUSTRIAL AFFILIATES
TECHNOLOGY BREAKFAST**

“Disney Engineering: The Technology Behind the Magic”

Mr. Ed Machado, PE
Manager, Ride Sustaining Engineering, Disneyland Resort

Thursday, May 19, at 7:30 a.m. • Fullerton Marriott at CSUF

Join the Industrial Affiliates of the College of Engineering and Computer Science for an entertaining and informative presentation by Disneyland ride sustaining engineer, Ed Machado.

The seamless magic of Disney attractions is legendary. But it takes a lot more than pixie dust to make it happen. This special presentation will take a look behind the scenes at the sophisticated engineering that goes into the making of a Disney attraction.

Raman Unnikrishnan, Ph.D.
Dean, College of Engineering & Computer Science
