Course Approval Form for Independent Study or Directed Study

To register for one of these courses you must (in order):
1. Discuss the topic with your advisor and/or instructor.
2. Complete this form and the required write-up (Goals/Expectations) and grade basis.
3. Gather the required signatures.
4. Submit this form and the write-ups to the office staff. They will remove the registration block.
5. Register for the class.

Select one:
- 293 – Directed Field and Laboratory Study (1-3 units): Research under the supervision of a geology faculty member. Intended for students who may not have completed sufficient coursework to allow them to work independently, but who are eager for research experience.
- 493 – Directed Studies (1-3 units): Directed studies in specialized areas of the geological sciences, such as petroleum geology, sedimentology, optical and instrumentation techniques. Library research and written reports required.
- 499L – Independent Study (1-3 units): Independent study of a topic selected in consultation with and completed under the supervision of the instructor.
- 593 – Directed Graduate Studies in the Geosciences (1-3 units): Directed studies of specialized geoscience topics not covered by existing courses and tailored to individual student interest. Literature research, recitations and written reports required.
- 599 – Independent Graduate Research (1-3 units): Independent research on an approved topic.

Please attach a brief write-up that describes the following:

Goals: Describe the goals of the proposed Independent or Directed study. Collaboratively written by student and instructor.

Expectations and deliverables: Describe student expectations. Must include the number of meetings during the semester and written product(s) or project. Collaboratively written by student and instructor.

Basis for final evaluation: Describe how the student will be assessed and how grades will be assigned. Overall grade shall include all aspects of expectations above, such as meetings and evaluation of written products(s) or project. Must indicate what constitutes the final grade (A,B,C, etc). To be written by instructor.
