Dear Ms. Drath:

We are pleased to announce that the Ohio University College of Osteopathic Medicine will again host the **Summer Undergraduate Research Fellowship (SURF)** program for students interested in careers in medicine or biomedical research.

We hope you will publicize this opportunity to your interested students. Please feel free to make copies of the application materials.

The SURF program emphasizes our commitment and dedication to research. Summer research fellows will work for eight weeks in an active research laboratory under the guidance of a biomedical science faculty member.

The program will run from June 15 through July 27, 2009. Participants will be provided with room and board, \$600 in living expenses and 8 quarter hours of biology credit with a tuition waiver from Ohio University.

Students who are eligible to apply for admission to medical school will have the opportunity during the summer to interview for admission to OU-COM.

The enclosed application should be postmarked by February 1. Letters of recommendation and transcripts must be postmarked by March 1 in order for the student's file to be considered complete.

Sincerely yours,

John D. Schriener, Ph.D.
Director of Admissions
Assistant Professor, Department of
Social Medicine

Ginny Valentin, M.Ed.
Associate Director of Admissions
