Dear International Students,

Recently, you were notified of the 10% fee increase for the 2009-2010 academic year. If your financial situation has drastically changed due to this increase, or if you have other severe, unforeseen economic necessities, you may be eligible to apply for off-campus employment. This type of employment requires a work permit from the Department of Homeland Security. Please attend the "Economic Hardship Information Session" for important eligibility requirements and the application procedure.
