A Teaching Associate (TA) is a CSUF graduate student who is appointed part-time, usually to teach credit-bearing courses. Responsibility for a course will be vested in the TA under the direct supervision of an appropriate faculty member. Teaching assignments may include multi-section coordinated courses, in which instructors must abide by all coordinated course policies, including the conditions contained in the general syllabi.

Duties may include the following:

- Providing classroom instruction
- Preparing course materials and administering assignments to students
- Administering examinations, grading student work and otherwise assessing student performance, and determining course grades
- Holding scheduled office hours
- Meeting the expectations of TAs for the specific course, as established by the Department and supervising faculty member
- Participation in all training and support sessions related to teaching as provided by the Department of Mathematics, including MAED 542*,
Teaching Mathematics at the College Level. This course will deepen participants’ knowledge of teaching mathematics at the college level

*Required of new hires only, unless otherwise specified

**Interview Process**

The interview will include a brief presentation (approximately 15 minutes) on a topic that will be provided from intermediate or college algebra. The successful Teaching Associate application and interview will show strong evidence of:

- Mathematical content knowledge
- Spoken English communication skills
- Written English communication skills
- Professional presentation and demeanor

This is a pool of Teaching Associates for the department to draw on as necessary.

**APPOINTMENTS FROM THE POOL ARE TEMPORARY AND OFTEN MADE JUST PRIOR TO THE START OF THE ACADEMIC TERM. APPLICANTS MAY BE OFFERED EMPLOYMENT ON VERY SHORT NOTICE.**
