California State University, Fullerton (CSUF) sponsors an exciting program called the “Mathematics Intensive Summer Session” (MISS). The purpose of this program is to assist college bound young women to enhance their mathematics skills.

For the past twenty-nine years, CSUF has offered this program to female high school students, including many who will be the first in their family to attend college. The immediate goal of the program is to increase students’ abilities to learn and use mathematical concepts thereby supporting their achievement in high school college preparatory coursework. The long-term goal of the program is to increase the population of female students who choose careers in natural sciences, engineering, and mathematics (STEM).

MISS is a four-week commuter program which will begin on Monday, July 8, 2019 and end on Friday, August 2, 2019. Students will attend six hours of mathematics class daily, Monday through Friday from 8:00 am to 3:00 pm. This enrichment program is intended to help students strengthen their foundational understanding of their next course of math.

Meals, books, materials and supplies are provided at no cost to the student. Every first-time MISS student that completes the program will receive a free graphing calculator.

What kind of mathematics will be taught?

The mathematics content to be taught this summer will be selected topics in Algebra II/Math III and Pre-Calculus that relate to the Common Core State Standards for Mathematics.

To be eligible to participate in the MISS program, students must:

1. Have completed one of the classes below with a “C” or better by June 2019.
   - Geometry/Math II to attend Preparation for Algebra II/Math III
   - Algebra II/Math III to attend Preparation for Pre-Calculus

2. Be enrolled in college preparatory classes in high school.
3. Be planning to attend a university upon completing high school.
4. Be willing to work hard to improve mathematics skills.

How to apply

The application packet must include:

- An admission application
- A recommendation form (must be filled out by a math or science teacher, or by the student’s counselor).
- A one-page essay on why you are interested in the MISS program. In your essay, please include what you will contribute to the program, and what you hope to gain.
- A copy of your high school transcript.

To receive an application packet, please visit our website at www.fullerton.edu/miss.

Please return the application packet to:

California State University, Fullerton
Attention: Dr. David Pagni
MISS Program
800 N State College Blvd., MH-154
Fullerton, CA 92831

Applications must be postmarked by Friday, May 24, 2019.
10 REASONS TO PARTICIPATE

✓ Make friends with other college-bound young women.
✓ Achieve success by learning to take control of your academic life.
✓ Get acquainted with the CSU Fullerton campus and university services.
✓ Meet university faculty.
✓ Prepare yourself for success in college.
✓ Explore a variety of career options.
✓ Improve your problem solving abilities.
✓ Meet successful female role models.
✓ Strengthen your memory and mathematics skills.
✓ Have FUN!
