“Characteristics of Successful Proposals” for Intramural Grants
College of Education

1. Pilot research projects that are innovative and can lead to large-scale external funding.
2. Research projects that engage and/or impact CSUF students (including the enhancement of instruction).
3. Research projects that can lead to a book, peer-reviewed publication, and/or external funding.
4. Research projects that encourage interdisciplinary work or collaborative research environments between the PI, other CSUF faculty, and/or faculty from other academic institutions.
5. Research projects that strengthen the PI’s research profile, that of her/his department or college, and/or CSUF.
6. Research projects that advance the mission and strategic goals of CSUF and the College of Education;
7. Research projects whose budgets are relevant, reasonable per discipline, and itemized.
8. Research projects that effect just, equitable, and inclusive education.
9. Research projects that have potential impact on learning in P-20 educational settings.
