Hello Titans,

I want to begin by commending each and every student, staff, and faculty member for making the best out of what was an eventful 2019-2020 Academic Year, due to COVID-19. Although the year did not unfold the way we had originally envisioned, I stand proud of the work that was accomplished by everyone across our university. Titans showed tremendous adaptability, ingenuity, and remained a community, even as we socially distanced. I heard countless stories, displays of virtuoso if you will, of students, staff, and faculty encouraging and educating other Titans through use of digital technology. Speaking specifically to our Student Affairs staff, I saw firsthand the care that was put in to providing Titans with in-person services and, beginning in March 2020, Virtual Student Services. While our virtual experience was certainly unexpected, we made the most of an unexpected situation. Rather than dive into the specifics, I invite you to continue reading, as this report captures the full-picture.

On a more personal note, thank you for having me this past year. Student Affairs is my inextinguishable passion, as many of you know, and it was an honor to end retirement for one “last dance” in Student Affairs as a Titan. I often say that “students are not an interruption to our day; they are the reason that we are here.” Please hold to that mindset in your future endeavors, and keep up the outstanding work under Dr. Tonantzin Oseguera, your new Vice President for Student Affairs. Thank you again, and I wish you much success in all that you do.

Once a Titan, Always a Titan!

Take care,
