SUMMER BRIDGE

The Summer Bridge Program is a comprehensive six-week academic and residential program in which students enroll in Mathematics and English courses before the fall semester begins.

The Summer Bridge Program provides the opportunity to strengthen students’ academic skills and help develop personal management strategies, as well as social skills. In addition, students have the opportunity to establish a personal support system by meeting new friends, learning from continuing students, and networking with faculty, staff, and other members of the campus community, all of whom will assist students throughout the years at CSUF.
