

Resolution Requesting Additional Resources for Departments and Colleges to Support the Completion of Grad Check/Titan Degree Audit (TDA) Review Prior to Spring 2009

Resolved: The Academic Senate requests that the Vice President of Academic Affairs provide additional resources to the departments and colleges that need and request them, in the form of compensation for faculty during their “off-contract” time, or release time during the early portion of spring 2009, to support them in their completion of grad checks.

Rationale: In previous years, grad checks were completed by this time of year, as students register in early January. As of today, December 4, 2008, faculty members do not have the ability to complete grad checks due to technical issues in producing the list of students who are ready for grad check/Titan Degree Audit (TDA) review and transitioning to an online grad check process. It is imperative that grad checks be done as soon as possible since students rely on them when scheduling classes for their final semesters. Ensuring that grad checks are completed prior to their registration window will help students graduate on time.

Approved unanimously by the CSUF Academic Senate on Thursday, December 4, 2008
