Emergency Services

An emergency medical condition is a medical or psychiatric condition that manifests itself by acute symptoms of sufficient severity (including severe pain) such that you could reasonably expect the absence of immediate medical attention to result in any of the following:

- serious jeopardy to your health
 - serious impairment in your bodily functions
 - serious dysfunction of any bodily organ or part.
- (Kaiser Permanente)

Urgent Care symptoms may include:

- Moderate fever
- Colds, cough or flu
- Bruises, abrasions and minor cuts
- Minor burns
- Eye, ear or skin infections
- Sprains or strains
- Urinary tract infections
- Respiratory infections
