The ULC is now offering Pronunciation Workshops for those students who wish to improve their English speaking skills.

Workshops are FREE and open to all CSUF students including American Language Program Students.

These workshops are especially beneficial for students in the TESOL program who are preparing for the oral component of their exams.

If you are unable to attend the workshops, please schedule an appointment for individual conversation practice with one of our trained TESOL tutors. Stop by the ULC and ask for a conversation tutorial or call us at 714-278-2738.
