ADMISSIONS
(657) 278-2371, Langsdorf Hall First Floor
Transfer Students
If you have credits for college work completed before being admitted to Cal State Fullerton, you will usually receive an email requiring you to check your TITAN Degree Audit Reports (TDA). This will come separate from your admission notice if all your preliminary official college transcripts have been received. If your admission email letter indicates that you need to send your transcripts in order to receive a course evaluation, please forward these transcripts immediately. After all of your transcripts are received, you will receive an email to check your TDA. Questions about your evaluation can be directed to the evaluations unit. In most cases, the Academic Advisement Center can explain and interpret the evaluation for you. A maximum of 70 units from community colleges and 90 units from a combination of community colleges and 4-year colleges and universities can be applied toward your bachelor’s degree at Cal State Fullerton.

Units and Hours
One semester unit of credit traditionally requires one hour of in-class time and two hours of out-of-class time per week. Laboratory and other activity type classes require two or three hours of class time per unit of credit. For example, a twelve unit class load normally requires an average time commitment of 36 hours per week (12 hours per week in class and 24 hours or more outside of class). A 15 unit load will require 45 hours per week. The point is that even a 12 unit load is the equivalent of a full time job devoted to your university studies. If you also work 20-40 hours per week at another job, you should realize that you may be working the equivalent of nearly two full-time jobs. A student who takes fifteen units per semester for 8 semesters could graduate in the traditional four years, if the student is pursuing a 120 unit bachelor of arts program. (The national average is now 5.5 years to receive a bachelor’s degree). Some baccalaureate programs require more than 120 units (refer to the University Catalog). Athletes, international students, students on financial aid and other groups of students are required to be enrolled in 12 units or more to be considered “full-time”. Check with an advisor if there is some minimum number of units for full-time status in your particular case.

Remedial/Lower Division/Upper Division
On this campus, courses numbered below 100 are remedial, developmental or pre-college in content. No credit is awarded toward a degree or a credential for these courses. Courses numbered in the 100 and 200 series are considered freshmen and sophomore level and are designated lower division. Upper division courses are at the junior and senior level and have 300 and 400 series numbers. Graduate courses have 500 numbers and may only be taken by undergraduate seniors with special permission. You may take any course for which you meet the prerequisites (see the University Catalog), but a student with frosh standing should only take upper division courses after consulting an advisor. All classes taken at a community college are, by definition, considered lower division.

Electives
There are elective courses within the major and totally free electives. Within your major, you will often have a choice of courses from a broad list to meet certain major requirements. Your choices often require advisor approval. Depending on your major, the completion of all major requirements and all GE requirements may still leave you short of the 120 unit minimum to graduate. In this case, you can take elective courses, which can be additional courses related to your major or any other courses to fulfill personal or professional interests.

MQE (Mathematics Qualifying Examination)
Before you can enroll in any of the calculus courses at Cal State Fullerton (Math 130, 135, 150A), you must pass the MQE in addition to either being exempt from or having passed the ELM. There are no exemptions from the MQE. See the Registration Guide for details.

**Other Qualifying or Placement Examinations**

The Registration Guide also lists dates and procedures for examinations for other departments. The CSET and MSAT are examinations of concern to prospective teachers. The Credential Preparation Center (CP-740) should be contacted for information.

**General Education**

As explained earlier in this guide, your degree from Cal State Fullerton is made up of three parts: course and other requirements in your major, your general education requirements, and free electives. Because major requirements differ widely from department to department, you should consult your department advisor for this kind of information. GE requirements, however, are the same for all students (except for Engineering Majors) and this section will provide some important information useful for all students.

**Sequence of GE versus Major Courses**

GE requirements are not something to “get out of the way” in your first two years here or at a community college. For many majors it does make sense to concentrate on GE first and take only a few courses in the major in the first two years. GE provides breadth to your education and may result in you changing your major to a field different than your original intention. Doing most of your GE first is certainly good advice for low unit and undeclared majors. However, it is very bad advice if your major has many required courses which must be taken in a rigid sequence, e.g., majors in the Colleges of Business and Economics, Natural Sciences and Mathematics, and Engineering and Computer Science. In these cases, you should work with an advisor to blend important introductory courses in the major with GE courses right from the first semester.

**Taking GE Requirements at a Community College**

If you entered Cal State Fullerton as a transfer student, the information in the section on “Transfer Students” explains the process of evaluating the GE requirements you may have already met with your community college courses. You may take community college courses to meet GE (and even some major) requirements after you have enrolled at Cal State Fullerton. However, you must verify that the community college course you wish to take is considered the equivalent of a Cal State Fullerton course that meets the requirement you are attempting to fulfill. The Academic Advisement Center has information about GE course equivalencies between Cal State Fullerton and most of its neighboring community colleges. Some courses that meet GE requirements for certified transfer students cannot be taken and used to fulfill the same requirement by a student who begins his/her enrollment at Cal State Fullerton.

**Upper Division and Residence GE Requirements**

It is impossible to complete all GE requirements with community college courses because of the need to complete nine units of upper division GE and nine units in residence. If the nine units of GE taken on this campus (residence units) are upper division classes, then these nine units meet both requirements (See the Registration Guide).

**ADMISSIONS AND RECORDS SERVICE CENTER**

(657) 278-2300, Langsdorf Hall 114

The Admissions and Records Office (A&R) is the administrative center for your
education at California State University, Fullerton. The purposes of A&R include assistance to applicants and students, as well as the implementation and enforcement of academic policy. When you read the Registration Guide, register for classes, add or drop a class, change a grade option, apply for graduation, or request a transcript, you’re dealing with A&R.

A&R keeps a record of your academic activity at Cal State Fullerton. It’s up to you to know academic policies and procedures so that you can keep your record straight. Student responsibility is outlined in a section of the University Catalog: it is recommended reading.

**Transcripts**

A transcript is the official record of your academic achievements and includes classes taken, units earned and grades received. The number of transfer units accepted by Cal State Fullerton are also part of this record.

When you need your Cal State Fullerton transcript, official copies can be requested from A&R by filling out a Transcript Request form and paying a $4 fee. Additional transcripts ordered at the same time cost $2. Please allow a minimum of five working days for processing your transcript request. Processing may require additional time during busy periods at the end of each term. You may view and print an unofficial copy of your transcript on Titan Online. You will need your user name and password to access the new Titan Online.

**Graduation Check**

Undergraduate students should file an application for a graduation requirements check one year in advance of their anticipated graduation date. In addition, they must have senior standing in order to receive a graduation check (85 units or more completed and a declared major). Application forms are available on the student portal under “Student Center”. For exact filing dates and deadlines, consult the current Registration Guide.

**Stop-Out Policy**

With certain exceptions, undergraduate students and postbaccalaureate unclassified students may be absent for one semester and maintain their continuing student status. The exceptions are as follows:

♦ Disqualified students - Students who are disqualified at the end of a semester and have not been reinstated will not receive a registration appointment; they must apply for readmission, and if admitted, may be subject to new curriculum requirements.

♦ Foreign-visa students - Students with foreign visas are required to maintain continuous enrollment. The stop-out policy is not applicable.

Students absent for more than one semester must apply for readmission should they wish to return to Cal State Fullerton.

**Leave of Absence**

*Undergraduates and Postbaccalaureate Unclassified Students*

A leave of absence may be granted based on certain documented extenuating circumstances (e.g. illness or disability, active duty in the armed forces of the U.S.) and normally is granted for not more than one year. A “leave of absence” request must be accompanied by supportive documentation. Undergraduate and postbaccalaureate unclassified students qualify for a leave if they have completed at least one semester in residence at Cal State Fullerton and are in good academic standing. Such an approved leave of absence authorizes the student to return without reapplying to the University and continue under the University Catalog requirements prior to the absence. Undergraduate and postbaccalaureate unclassified students on approved leaves of one year (two academic semesters) or less are eligible to register for the semester immediately following the end of the leave and will be assigned a registration appointment.
**Graduates and Credential Students**

Graduate degree or credential students may be granted leaves of absence up to two consecutive semesters which maintains their place in the University and in the degree or credential programs. All leave of absence requests must be accompanied by supportive documentation. Grounds for requesting a leave include: (1) illness or disability or similar personal circumstances including pregnancy; (2) activities which enhance a student’s professional career objectives; (3) active duty in the armed forces; and (4) other reasons at the discretion of the Director of Graduate Studies.

A leave of absence is not automatic and must be requested by completing a “Request for Leave of Absence” form which is available at the Admissions and Records Service Center, LH-114. Notification regarding the requested leave will be forwarded in writing to the student. Further information about a leave of absence may be obtained by contacting the Admissions and Records Service Center.

**Open University Enrollment**

Individuals not normally admitted to the University may register through the Office of Extended Education as extension students for regular classes by securing the approval of the instructor and the academic department. Open University students must pay extension fees, meet all course prerequisites and observe extension regulations for change of program. Open University students are required to contact the UEE academic advisor in UH-123 prior to registering. Refer to the Registration Guide or contact the Office of Extended Education for further information.

**Veterans Certification**

Veterans may obtain information concerning application benefits, registration and adjustments in status from the Veterans Certification Office in LH-540. Call (657) 278-2086 for the hours a Veterans Certification Officer is available. New, returning and transfer student veterans should consult the Veterans Certification Office to complete the necessary documents to receive VA benefits.

**Titan Online**

Students may access a great deal of general university information or specific information about their individual records via Titan Online and the Student Center which are both parts of the Student Portal. Presently, information about class schedules, the university directory, admissions, grades, and financial aid are available.

**TITAN Registration**

Registration appointment information is available via Titan Online prior to each registration period.

**Adding Classes**

The procedures for adding classes are explained in the Registration Guide. Registration related deadlines are on the inside front cover. Note that the procedures change after classes have begun and that special rules apply depending on the specific college or campus. It is increasingly more difficult to add classes as the term progresses. You need to register as early as possible for all your classes. The later you wait to register, the
more reduced is your probability of requesting the courses you want or need.

**Petitioning Classes**
If a class you need is closed, you may be offered an option to “waitlist” the class. Additional information regarding the waitlist process is available in the Registration Guide. If the course does not have a waitlist option or the waitlist process has ended, check the current Registration Guide for the procedures to petition enrollment in a course. Petitioning for enrollment does not guarantee approval.

**Dropping Classes**
The procedures for dropping classes are explained in the Registration Guide. Just as with adding classes, the procedures change as the semester progresses, and are different for business classes. For semester length courses, until approximately the end of the second week of classes (please check the exact date), there will be no record of enrollment, i.e., nothing will appear on your transcript, for dropped classes. Dropped classes during the next 10 weeks will result in a W (Withdrawal). However, please note that permission to drop with a W requires a serious, compelling and documented reason. Poor academic performance is not a sufficient reason to drop. After the twelfth week, you may drop classes only for emergency medical reasons, and it is expected that you will drop all of your classes.

**Filing Add or Drop Forms; The WU Grade**
In some cases, adding or dropping classes may require the use of printed forms. Please check the Registration Guide or contact the Admissions and Record Helpline at (657) 278-7601. If you stop attending class and do not properly drop the course, your instructor may assign you an F grade, or in most cases, a WU grade which stands for “unauthorized withdrawal”. The WU grade counts as an F for your grade point average.

**ADULT REENTRY CENTER**
(657) 278-3889, University Hall 205
www.fullerton.edu/adultreentry

Monday - Thursday, 8:00 am - 7:00 pm; Friday, 8:00 am - 5:00 pm (some evening appointments available)

The Adult Reentry Center (ARC) is dedicated to issues of the adult learner and the successful completion of their educational goals. The profile of the adult reentry student is constantly evolving, and the number of reentry students at our university is rapidly growing. Our adult reentry students are at least 25 years of age and have made the decision to attend our university to complete their education.

Returning to school after an absence is a significant issue for adult learners. Usually, they return with more responsibilities to manage than when they were previously in school, such as marriage, children, extended families, jobs, and careers. These additional demands upon their schedules may initially elicit concerns about time constraints, performance, and the level of skills they possess in the academic arena. Typically, reentry students achieve a remarkable level of competency as they progress toward their academic goals.

ARC is aware of the unique needs experienced by reentry students and functions to offer support and services to foster and enhance students’ growth and success.

We offer weekly discussions on issues that are pertinent to students’ success, and present opportunities for them to improve their skills as they pursue their academic goals.

Workshops and strategies for success are presented to assist students by improving their study skills, effectively using time management techniques, assistance with classroom writing assignments, stress management, and more.

These range from volunteer opportunities with the International Student Orientation Program to the International Student Association. Please visit our office or website for details on how you can get involved in these programs.

Study Abroad (www.fullerton.edu/studyabroad)
Get connected to the world . . . Nearly every student returning from studying abroad describes their experience in virtually the same way:
♦ "Life-changing...the best experience of my college career!"
♦ "I met so many amazing people!"
♦ "Now I can actually speak Spanish (or Italian, French, Japanese, Korean, etc.)."

Why do so many students say the most fulfilling time of their college experience was spent studying abroad? The “study abroad experience” is a process that takes them out of their daily routines and challenges them in many ways. Study abroad helps students to develop new understandings, habits, beliefs, and a more sophisticated appreciation of the world. Frequently, they even return home with a better idea of the direction they want to take in life. Cal State Fullerton provides opportunities for its students around the globe; the Study Abroad Office is here to help! Visit the Study Abroad website at www.fullerton.edu/studyabroad/ to learn more. It is never too early to begin planning to study abroad!

www.fullerton.edu/integrity

We want you to have the best experience possible here at Cal State Fullerton. The Dean of Students Office, Judicial Affairs is here to assist you in meeting your academic and career goals by helping you understand the standards for academic integrity and student behavior which are expected of all students.

Our standards are outlined in the policy section of the Student Handbook, and in other related materials such as the University Catalog, Registration Guide, and the syllabus for each of your classes. The University expects students to know these rules and abide by them.

What Is Academic Dishonesty?
Academic dishonesty (cheating) is any act which attempts to gain an unfair academic advantage or assisting or permitting others to do so. Such acts include:

♦ Cheating on exams or assignments
♦ Unauthorized collaboration
♦ Plagiarism
♦ Falsifying academic records

If you have questions about any of these acts, including tips on how to write an effective paper without plagiarizing, please check out our website. See the Academic Dishonesty Policy (UPS 300.021) for the university definition.

What Can You Do To Ensure Academic Integrity?

♦ Don’t be dishonest! Remember that a poor grade is better than an “F” in the course, suspension or expulsion for cheating.
♦ Protect your work from others.
♦ Don’t sit next to friends during an exam. It may put you or them in a compromising position.
♦ Know exactly what constitutes academic dishonesty. Read the policy section of your Student Handbook, and talk to your professors.
♦ Write your own papers! Remember that professors want to know what you think, and what you have learned about the subject. Every word and idea should be your original words and ideas unless you give proper citation.

♦ CSUF - Making Integrity Count! – do your part.

What Behavior Can Result In A Referral To Judicial Affairs?

♦ Alcohol misuse has caused many problems for students – behaviors such as underage drinking, drunk in public, drinking and driving, vandalizing property while intoxicated, engaging in fights, urinating in public, committing a sexual assault

♦ Inability to manage time or stress sometimes overwhelms students – resulting in verbal harassment, physical intimidation, forging signatures on documents, or providing false information to the University

♦ Lack of judgment and failure to understand one’s responsibility to the community are easy ways to get off track – behaviors such as disruption in a classroom, department, office, parking lot, possession of firearms or other weapons on campus, allowing or encouraging misconduct from other students or guests

♦ Behavior within the community which violates local, state or federal law - such as use or possession of illegal drugs including marijuana, selling or providing illegal
drugs, theft of property, hazing

Judicial Affairs also responds to allegations that a student has violated university standards (policy section of the Student Handbook) and provides a fair, consistent and timely response to guarantee that due process is afforded each student.

If you have any questions, concerns or wish to report a violation please contact the Associate Dean of Students, Judicial Affairs.

A Note of Caution

Cal State Fullerton values the many contributions that our student organizations contribute to campus life. There is an expectation that groups who receive recognition from the University are committed to representing their purposes honestly and respecting the rights of their members. In contrast, before joining any groups or organizations, be sure to be cautious of some or all of the following methods or characteristics of an organization.

♦ PRESSURE AND DECEPTION: The organization uses high pressure recruitment tactics or is not up-front about their motives when they first approach you.

♦ TOTALITARIAN WORLDVIEW: They do not encourage critical, independent thinking. In contrast, higher education aims to enable students to think for themselves. Be aware of groups or leaders who try to control your life or who claim to possess the truth exclusively.

♦ ALIENATION: They want to choose your friends for you. Watch out for groups that encourage you to sever ties with close friends and family who do not belong to their group. Such groups employ unethically manipulative techniques of persuasion and control, and they should be avoided.

♦ EXPLOITATION: They make unrealistic demands regarding your time and/or money. If participation in a group takes away significantly from your study time, beware. A group or leader who cares about you understands that your studies represent your future and are thus your first priority as a CSUF student.

If you feel that you are being pursued aggressively or pressured to engage in an act or
activity that violates university codes of conduct, or if you have any concerns about a group, do not hesitate to contact any Dean of Students Office staff member.

STUDENT RIGHTS AND RESPONSIBILITIES

Introduction

Our colleges and universities bear a special obligation to serve as exemplars of respect for individuals. Such respect underlies the trust relationship that is the foundation of our free institutions. Such respect must also underlie the university-student relationships if both are to progress. Such a relationship cannot thrive when insufficient attention is given to the issue of students' rights and responsibilities.

The Student Rights and Responsibilities rely heavily upon the concept that the student-faculty relationship is a partnership that is one of co-learning toward common objectives. The University believes that our community of learning has an equal responsibility to all of its members; indeed it cannot exist without the contribution of each.

The following rights and responsibilities will mean nothing unless a relationship of trust exists among the students, administration, and faculty of California State University, Fullerton.

Academic institutions exist for the transmission of knowledge, the pursuit of truth, the intellectual growth of their members, and the general well-being of society. Free inquiry and free expression are indispensable to the attainment of these goals. As members of the academic community, students should be encouraged to develop critical judgment and to engage in a sustained and independent search for truth. Since freedom of inquiry and expression are meaningless if freedom of expression does not include freedom to act, the academic community must not only permit but should also encourage all forms of action which do not interfere with the rights of other individuals or groups or with the essential functions of the academic community.

An academic community which fosters freedom may find itself in conflict with other segments of society, for freedom stimulates the passion for creation, experiment, and change. Only by choosing the course that vigorously defines rights and freedom while maintaining responsibilities can a university truly keep its pledge to the scholars of the past and to those of the future.

The relationship between California State University, Fullerton and its students must be viewed in the light of the function of the university to transmit to its students the civilization of the past, to enable them to take part in the civilization of the present, and to contribute to the civilization of the future.

In this great pursuit, the student must be viewed as an individual who is most likely to attain maturity as a critical thinker, if left free to make personal decisions and to exercise
the rights, as well as shoulder the responsibilities, of citizenship on and off the campus.

It is the policy of California State University, Fullerton to create and maintain an environment that values diversity, respects human dignity, is hospitable, equitable, and tolerant, and in which all persons are free from all forms of invidious discrimination or discriminatory harassment.

California State University, Fullerton challenges and summons its students, faculty, staff, and administration to promote a hospitable and equitable learning environment for all persons; asserts that tolerance for diversity shall be the norm for behavior on the part of all who are present on the campus; discourages the use of derogatory or disparaging language and other forms of expression; and, particularly, condemns those who insult persons on the basis of race, ethnicity, national origin, ancestry, citizenship, religion, creed, sex, sexual orientation, marital status, age, disability, or veteran status.

This document provides a statement of general policy concerning the rights and responsibilities of students. The rights enumerated in this document are not to be interpreted as excluding other rights commonly accepted in the academic community. The responsibilities outlined in this document are not to be interpreted as the sole responsibilities of a CSUF student. Other official university documents such as the University Catalog, course schedule, and student handbook also outline student responsibilities and rights.

Rights

1. Right of Freedom of Expression
   a. Every aspect of the educational process should promote the free expression of ideas. Students are free to pass resolutions, distribute leaflets, picket, circulate petitions, discuss, and take other lawful action respecting any matter, which directly or indirectly concerns or affects them, subject only to reasonable time, place and manner considerations.
   b. Students have the right of freedom of speech and assembly. They may publicly assemble to demonstrate support for or opposition to causes or candidates. University control of campus facilities shall not be used to prevent the free exchange of ideas. The prescribed areas of public assembly shall not be isolated from the natural gathering points of the University.
   c. Students are free to invite and hear speakers of their choice.
   d. Students are free to express reasoned verbal exception to the data or views offered in courses of study and to reserve personal judgment as to the truth or falsity of what is presented.

2. Right of Fair and Equal Evaluation
   a. Students have the right to a just measurement of their performance by the professor. Instructors shall take no action to penalize students because of their opinions or because of their conduct outside the classroom. This right holds also for such matters as confidential evaluations, consideration of advancement to degree candidacy, and continuance in a major.
   b. Students shall have protection through orderly procedures against prejudiced, capricious or arbitrary academic evaluation. The method of grading by professors shall be made known to students. Students can expect that faculty will be willing to explain and discuss any grade, and students have the right to appeal any grade.

3. Right of Input Into University Governance and Instructional Programs
   The functioning of the educational community requires an awareness of mutual responsibility, understanding, trust, and respect in order that all its members may actively contribute to the development of policies and programs. This purpose shall
be achieved through continuous cooperation within the educational community.

a. Students shall be free individually and collectively to express their views on issues of institutional policy and on matters of interest to the student body. Students are guaranteed the right of participation in those aspects of university governance which relate to the interests of the student body.

b. Students shall have an active voice in (1) the making of University policy and procedure affecting their co-curricular activities or academic affairs, and (2) the formulation and implementation of standards of student conduct.

4. Right of Free Association

Students are free to organize and join associations to promote common interests. Affiliation with an extra-mural organization will not disqualify a student organization from University recognition.

a. Student organization leaders have the right to determine the role of the faculty or staff advisor and to describe this role in appropriate governing documents. Student organizations that wish to access a certain level of privileges may be required to have a faculty or staff advisor. However, it should be noted that advisors will not be held responsible for organizational activities over which they do not have authority or control.

b. Institutional recognition will be granted to all student organizations provided stated goals and proposed activities are legal and consistent with University rules and regulations.

c. Student organizations shall not be required to submit a list of membership. A list of formal representatives of the organization is required for informational purposes only.

d. Student organizations shall be open to all students without respect to race, religion, gender, age, national origin, disability, or sexual orientation, except for religious qualifications, which may be required by organizations whose aims are primarily sectarian. Greek-letter social organizations are exempt from the gender discrimination provision as per federal law.

e. Student organizations may be held accountable for the individual actions of their members if such acts are directly related to the student organization or if other student organization members were aware of the acts and did not take appropriate action to stop or prevent them.

5. Protection Against Improper Disclosure

a. Information about student views, beliefs, and political associations which University employees acquire privately in the course of their work as instructors, advisors, and counselors shall be considered confidential. Since improper disclosure of this information could have a damaging effect to the environment of free inquiry and expression necessary to quality higher education, protection against improper disclosure of confidential information regarding students is a professional obligation of faculty members and administrative staff.

b. Student records will be released only under legal compulsion or the written request of the student involved. If records are subpoenaed, the student shall receive the same information and the name of the subpoenaing agency.

c. Information from student educational records will be considered confidential in accordance with the Family Educational Rights and Privacy Act.

d. When a student has been found responsible for a violation of University standards through Judicial Affairs, a disciplinary record (separate from the student’s academic record) will be maintained in a confidential file in the Dean of Students
Office, Judicial Affairs, for a minimum of seven years. If a student is suspended or expelled from the University, the file shall be kept permanently. Probation and suspension are noted on the student’s academic record during the term of the probation or suspension. A permanent notation will be made on the student’s academic record if he or she is expelled from the University. If a student is found not responsible, all files will be purged.

Disciplinary records are considered education records under the Family Educational Rights and Privacy Act and as such can only be released in accordance with those regulations.

6. Right of Use of Facilities and Resources
   a. Student organizations shall be provided access to the campus’ resources and facilities in accordance with the policies and procedures specified in the Facility Use Manual and other Campus Policy.
   b. Campus facilities will be made available to all recognized student organizations on a non-discriminatory basis.

7. Right of Access to Relevant Education
   a. Students are entitled to an atmosphere conducive to learning and to equitable treatment in all aspects of the teacher-student relationship. Faculty must be mindful of the potential intimidating effect in the unequal power relationship between teacher and student. Faculty members shall not refuse to enroll or teach students on the grounds of their beliefs or the possible uses to which they may put the knowledge gained in a course. The student shall not be forced by the authority inherent in the instructional role to make particular personal choices as to political action or his/her own part in society.
   b. Students have the right to expect appropriate instruction under the guidance of the instructor at the times scheduled except in mitigating circumstances. Repeated non-performance or repeated lack of preparation by the instructor violates this right.

Teaching plays a primary role in the advancement of learning. Students have a vested interest in the nature and quality of instruction; therefore, their evaluation of teaching shall be a criterion considered in faculty promotion and tenure. Freedom to teach and to learn implies that faculty members have the right to determine the specific content of their courses within the established course definitions, and have responsibility not to depart significantly from their areas of competence or to divert significant time to material extraneous to the subject matter of their courses.

8. Right to Freedom of the Press
   a. It is the right and duty of the communications media on this campus to present news, opinion, and editorial comment and to provide a forum for the free exchange of ideas. At the same time, individuals operating and individuals contributing to these media are bound to recognize that these rights are to be practiced within the limits of prevailing law, University policies, and the canons of journalism.
   b. Students using media, such as broadcasting, film, and print, including pamphlets, handbills and circulars are guaranteed freedom from censorship. Those originating communications should be left free to exercise their own best judgment in the selection of materials. Neither a faculty member nor an administrator should exercise veto power over what may be disseminated.

9. Right of Due Process
   a. The student shall have the right of due process.
   b. Disciplinary actions against students are governed by the Executive Order No. 1073 Student Disciplinary Procedures for the California State University.
c. The student shall be considered innocent until proven responsible for a violation of University Standards. The status of a student in most cases will not be altered and disciplinary sanctions will not be initiated until completion of the disciplinary process. However, interim action may be initiated by the President, where there is reasonable cause to believe that it is required to protect safety or property and to ensure the maintenance of order.

d. Activities of students may result in violations of the law, and students who violate the law may incur penalties prescribed by civil authorities. However, the University reserves the right to review such incidents independent of action by civil authorities, recognizing that the University’s authority and its disciplinary process serve its educational mission and interest, a function separate from action by civil authorities.

Responsibilities

A. The University

It is the responsibility of the University faculty and administration to act in a manner which benefits the students at California State University, Fullerton. It is also their responsibility to uphold the rights of students and to obey the letter and the spirit of such rights.

If any student has evidence a member of the faculty or administration acts in a way which violates students’ rights as addressed in this document, the student is urged to consult first with the faculty/staff member, if appropriate. If necessary, the student should then consult with the appropriate supervisors or administrators at higher levels of responsibility. If the student is not satisfied with the results of this consultation process, he/she may request a hearing before the Student Academic Life Committee. This Committee will make its recommendations on the merits of the case and on subsequent actions to the appropriate Vice President(s).

It shall be the responsibility of the Office of the Vice President for Student Affairs and the Dean of Students Office to disseminate this policy. It shall be understood that these offices will develop more specific guidelines and procedures to administer and monitor the intent of this policy.

B. Students

Just as students have rights in the academic community, they also have responsibilities. Students’ rights exist primarily to meet their educational responsibilities.

All students are expected to be responsible for their own learning. They therefore must be aware of university requirements and policies concerning academic procedures including prerequisites for courses, deadlines for withdrawing from class, etc. They should also consult appropriate faculty and staff to assist in accomplishing their academic goals.

In order to be current with policies and procedures, students have a duty to keep their personal data with the University up to date.

Since the University exists within the framework of a larger community which expects its members to conform to civil and criminal laws without special privilege, students whose actions are reviewed by outside authorities may be held accountable under both the University’s jurisdiction and such other legal process.

1. Responsibilities: Right of Freedom of Expression

a. Students’ are expected to exercise free expression in a context of common sense and good judgment.

b. Students’ actions should not interfere with the rights of others or the function of the University.

c. Students are expected to respect the intellectual views of faculty and the reasoned
process of academic debate.

2. Responsibilities: Right of Fair and Equal Evaluation
   a. Students are expected to evaluate faculty and student team members fairly and responsibly. Anonymous evaluations must solely focus on academic criteria and not on the basis of opinions and conduct in matters unrelated to academic performance.

3. Responsibilities: Right of Substantial Input into the Determination of University Governance and Instructional Programs
   a. Students have the responsibility to participate fully in University governance, including serving on Campus Committees and voting in ASI elections. In undertaking such responsibilities, students must conduct themselves appropriately and abide by established procedures.
   b. Students who serve on university committees are expected to be informed fully about their duties and relevant issues.

4. Responsibilities: Right of Free Association
   a. Student organizations’ goals and activities must be consistent with University standards, policies, and legal requirements.
   b. It is the responsibility of student organizations to make clear in their public expressions that they speak only for themselves.
   c. Student organizations may be held accountable for the acts of their members if such acts are directly related to the student organization or if members were aware of the acts and did not take appropriate action to stop or prevent them.

5. Responsibilities: Protection Against Improper Disclosure
   a. Students have a responsibility to protect any student information which they may receive in the course of any position at the University.
   b. Students have a responsibility to keep confidential any information that they may obtain that is protected under relevant privacy law and policies.

6. Responsibilities: Right of Use of Facilities and Resources
   a. Student organizations and individual students must utilize university facilities and resources in a responsible manner that forwards the educational mission of the University.
   b. Student organizations and individual students may be held financially responsible for any damage incurred by the use of University facilities.

7. Responsibilities: Right of Access to Relevant Education
   a. Students have the responsibility to seek academic advisement throughout their enrollment at the University.
   b. Students are expected to learn the material in each enrolled class, and master the skills required to meet their educational goals
   c. Students are expected to be adequately prepared for class.
   d. It is the responsibility of the student to meet appropriate standards of academic performance and classroom conduct as stated by the instructor.
   e. Students are expected to demonstrate competency in analytical and critical thinking, as well as effective oral and written communication.
   f. Students share responsibility for monitoring standards of academic performance and classroom conduct conducive to the learning process.
   g. It is the shared responsibility of students to uphold the academic integrity of the university.
h. Students may not interfere with or disrupt the learning and teaching environment.

8. Responsibilities: Right to Freedom of the Press
   a. Students operating and contributing to campus media must recognize that their rights must be practiced within the limits of the law and the canons of journalism.

9. Responsibilities: Right of Due Process
   a. Students are expected to know and abide by the University’s standards of behavior as articulated in the Student Handbook and in related policy statements.
   b. In the University, as elsewhere, ignorance is not an acceptable justification for violating University standards.
   c. Students are responsible for understanding their rights in disciplinary matters and consulting with appropriate staff members.

In addition to the specific responsibilities arising in connection with these rights, students bear a general responsibility to support this institution's effort to maintain a spirit of free inquiry and respect for the rights of others. This responsibility arises from the fact that students are the present beneficiaries of that traditional spirit and are best positioned to preserve, improve, and transmit it to future generations. This responsibility imposes a duty on students not only to refrain from conduct which obstructs such effort of the institution but also to support those aspects of institutional discipline designed to deter or prevent such conduct.

FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT
President's Directive No. 17

I. Directive
The Family Educational Rights and Privacy Act (“FERPA”) and California State University Executive Order 796 (“EO 796”) afford students the right to inspect and review their education records; request amendment of an education record believed to be in error or misleading; limit disclosure of personally identifiable information contained in an education record; and file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with FERPA. Should a conflict arise between FERPA or EO 796 and this directive, FERPA or EO 796 will take precedence.

II. Authority

III. Scope
This directive applies to the records of any student who is attending or has attended the University. They do not apply to records of applicants for admission who are denied acceptance or, if accepted, do not attend the University.

IV. Definitions
A. Directory Information. A student’s name, date and place of birth, permanent and local address, University-recognized e-mail address, telephone number, class level, enrollment status, major(s), minor(s), dates of attendance, degrees and awards received, previous educational institutions attended, and past and present participation in recognized activities. Directory information also includes weight and height if student is an athletic team member.
B. Legitimate Educational Interest. A school official has a “legitimate educational interest” if the official must review an education record to fulfill their professional responsibility. The University faculty or staff member responsible for maintaining the requested record is responsible for determining whether a school official has a legitimate educational interest.

C. School Official. A University or CSU system employee or volunteer in an administrative, academic, research or staff position, including law enforcement unit personnel and health staff; an individual or entity with whom the University has contracted to act for the institution or to provide services the institution would otherwise perform for itself, such as an attorney, auditor, or collection agent; an individual, including a student, serving on a CSU System or University committee, such as a disciplinary or grievance committee, or assisting another school official in performing their professional responsibility.

V. Implementation

A. School officials with a legitimate educational interest may access student records. In addition to school officials with a legitimate educational interest, the University may disclose Directory information (defined in Section IV. A), depending on the nature of the request and depending on the release category selected by a student. Students may choose to limit the release of their Directory information as described below:

1. Permit release of all Directory information. Unless restricted by a student, the University may release a student’s Directory information at any time to any requesting party, including the military and for the development of University-affiliated marketing programs. This is the default category for release of information.

2. Permit release only "Verification" information. This sub-category of Directory information consists of a student's name, class level, enrollment status, major(s), minor(s), degrees and awards received, dates of attendance and University-recognized e-mail address. The University may release this information in response to requests, including but not limited to those from campus auxiliaries, financial lenders, employers, the military or insurance companies for verification of degree and enrollment information; for inclusion in Commencement and honors materials. Students who release only "Verification" information will be excluded from all University directories, printed or electronic, that the University may produce or publish.

3. Withhold release of all Directory information. Withholding the release of all Directory information means that the student will be excluded from all University directories and publications that the University may produce or publish, including Commencement and honors materials, and the University will not verify degree, dates of attendance or enrollment information without the prior written consent of the student. There will be no release to the military or for marketing programs.

B. Students wishing to review their education records must make a written request to the Vice President for Student Affairs. Requested education records as defined by FERPA will be made available for review within 45 working days of the request. Reasonable charges for copy costs will be applied.

C. The University notifies students of their FERPA rights in its course catalog, university website, and annually via electronic mail.

D. Students who believe their rights have been abridged may make a request in writing seeking assistance from the Vice President for Student Affairs, Langsdorf Hall 805, or The Family Policy Compliance Office, U.S. Department of Education,
VI. Accountability

A. The University will review bi-annually its information practices concerning student records to assess its compliance with FERPA, CSU Executive Order 796 and this directive. The Vice President for Student Affairs is responsible for ensuring the completion of these reviews.

B. Any school official requiring access to student records must meet all training requirements established. This training must be completed prior to access being granted.

C. Individuals who violate this directive are subject to appropriate disciplinary action pursuant to the applicable collective bargaining agreement and/or administrative policies or procedures.

D. The contact for questions concerning this Directive is the Vice President for Student Affairs or his/her designee.

A COMMITMENT TO CIVILITY AT CSUF

As members of the University community, we are committed to ensuring an environment where learning and the creation and dissemination of knowledge are foundational goals and where freedom of speech and expression is viewed as an essential characteristic of a community of scholars. To reach these goals it is imperative that we foster a climate where civility is valued, appreciated, and expected and where all members of the community are treated with dignity, respect, and care.

"Civility" comes from the Latin noun *civilitas* which has several meanings - namely "citizenship," "the body of citizens," "the city-state," "friendliness," "affability," and "geniality," - and, thus, may be equaled with courtesy - a style and manner that elevates human interaction and discourse. Civility is apparent when we are aware of the impact that our communications, practices, and behaviors have on others and when we acknowledge each person’s worth, cultural perspective and unique contributions to the community.

Establishing a civil climate is a shared responsibility of all community members - students, faculty, staff, and administrators. Civility is the expression of respect for others and for the tasks we share. It is best modeled through a willingness to listen to alternative views, respecting diversity and encouraging ideas. It is our belief that differences of opinion should reside within a framework of respectful discourse and lead to mutual understanding.

Therefore, we believe that civility is a cornerstone of our university mission and values, and we reaffirm our commitment to civility on the campus - both inside and outside the classroom. We will both individually and collectively strive to treat each other with dignity, respect, and care in all of our interactions.

UNIVERSITY STUDENT DISCIPLINE

Introduction

Students are expected to make themselves aware of and abide by the university community’s standards of behavior as articulated in this section, the University Catalog, and
other regulations of the university. Students accept the rights and responsibilities of membership in the Cal State Fullerton community when they are admitted to the university. At the university, as elsewhere, ignorance of the standards is not an acceptable justification for violating community standards.

Because the functions of a university depend on honesty and integrity among its members, the university expects from its students a higher standard of conduct than the minimum required to avoid disciplinary action.

Activities of students may result in violation of law, and students who violate the law may incur penalties prescribed by civil authorities. However, the university reserves the right to review such incidents independent of action by civil authorities, recognizing that the university’s authority and its disciplinary process serve its educational mission and interest, a function separate from action by civil authorities.

A. California State University Regulation - Section 41301: Standards for Student Conduct

(a) Campus Community Values

The University is committed to maintaining a safe and healthy living and learning environment for students, faculty, and staff. Each member of the campus community should choose behaviors that contribute toward this end. Students are expected to be good citizens and to engage in responsible behaviors that reflect well upon their university, to be civil to one another and to others in the campus community, and contribute positively to student and university life.

(b) Grounds for Student Discipline

Student behavior that is not consistent with the Student Conduct Code is addressed through an educational process that is designed to promote safety and good citizenship, and, when necessary, impose appropriate consequences. The following are the grounds upon which student discipline can be based:

(1) Dishonesty, including:
   (A) Cheating, plagiarism, or other forms of academic dishonesty that are intended to gain unfair academic advantage.
   (B) Furnishing false information to a University official, faculty member, or campus office.
   (C) Forgery, alteration, or misuse of a University document, key, or identification instrument.
   (D) Misrepresenting one's self to be an authorized agent of the University or one of its auxiliaries.

(2) Unauthorized entry into, presence in, use of, or misuse of University property.

(3) Willful, material and substantial disruption or obstruction of a University-related activity, or any on-campus activity.

(4) Participating in an activity that substantially and materially disrupts the normal operations of the University, or infringes on the rights of members of the University community.

(5) Willful, material and substantial obstruction of the free flow of pedestrian or other traffic, on or leading to campus property or an off-campus University related activity.

(6) Disorderly, lewd, indecent, or obscene behavior at a University related activity, or directed toward a member of the University community.

(7) Conduct that threatens or endangers the health or safety of any person within or related to the University community, including physical abuse, threats,
intimidation, harassment, or sexual misconduct.

(8) Hazing, or conspiracy to haze, as defined in Education Code Sections 32050 and 32051:

"Hazing" includes any method of initiation or pre-initiation into a student organization, or any pastime or amusement engaged in with respect to such an organization which causes, or is likely to cause, bodily danger, physical harm, or personal degradation or disgrace resulting in physical or mental harm, to any student or other person attending any school, community college, college, university or other educational institution in this state; but the term "hazing" does not include customary athletic events or other similar contests or competitions.

A group of students acting together may be considered a 'student organization' for purposes of this section whether or not they are officially recognized. Neither the express or implied consent of a victim of hazing, nor the lack of active participation while hazing is going on is a defense. Apathy or acquiescence in the presence of hazing is not a neutral act, and is also a violation of this section.

(9) Use, possession, manufacture, or distribution of illegal drugs or drug-related paraphernalia, (except as expressly permitted by law and University regulations) or the misuse of legal pharmaceutical drugs.

(10) Use, possession, manufacture, or distribution of alcoholic beverages (except as expressly permitted by law and University regulations), or public intoxication while on campus or at a University related activity.

(11) Theft of property or services from the University community, or misappropriation of University resources.

(12) Unauthorized destruction, or damage to University property or other property in the University community.

(13) Possession or misuse of firearms or guns, replicas, ammunition, explosives, fireworks, knives, other weapons, or dangerous chemicals (without the prior authorization of the campus president) on campus or at a University related activity.

(14) Unauthorized recording, dissemination, or publication of academic presentations (including handwritten notes) for a commercial purpose.

(15) Misuse of computer facilities or resources, including:

(A) Unauthorized entry into a file, for any purpose.

(B) Unauthorized transfer of a file.

(C) Use of another's identification or password.

(D) Use of computing facilities, campus network, or other resources to interfere with the work of another member of the University community.

(E) Use of computing facilities and resources to send obscene or intimidating and abusive messages.

(F) Use of computing facilities and resources to interfere with normal University operations.

(G) Use of computing facilities and resources in violation of copyright laws.

(H) Violation of a campus computer use policy.

(16) Violation of any published University policy, rule, regulation or presidential order.

(17) Failure to comply with directions or, or interference with, any University
official or any public safety officer while acting in the performance of his/her duties.

(18) Any act chargeable as a violation of a federal, state, or local law that poses a substantial threat to the safety or well being of members of the University community, to property within the University community or poses a significant threat of disruption or interference with University operations.

(19) Violation of the Student Conduct Procedures, including:

(A) Falsification, distortion, or misrepresentation of information related to a student discipline matter.

(B) Disruption or interference with the orderly progress of a student discipline proceeding.

(C) Initiation of a student discipline proceeding in bad faith.

(D) Attempting to discourage another from participating in the student discipline matter.

(E) Attempting to influence the impartiality of any participant in a student discipline matter.

(F) Verbal or physical harassment or intimidation of any participant in a student discipline matter.

(G) Failure to comply with the sanction(s) imposed under a student discipline proceeding.

(20) Encouraging, permitting, or assisting another to do any act that could subject him or her to discipline.

(c) Procedures for Enforcing This Code

The Chancellor shall adopt procedures to ensure students are afforded appropriate notice and an opportunity to be heard before the University imposes any sanction for a violation of the Student Conduct Code.

(d) Application of This Code

Sanctions for the conduct listed above can be imposed on applicants, enrolled students, students between academic terms, graduates awaiting degrees, and students who withdraw from school while a disciplinary matter is pending. Conduct that threatens the safety or security of the campus community, or substantially disrupts the functions or operation of the University is within the jurisdiction of this Article regardless of whether it occurs on or off campus. Nothing in this Code may conflict with Education Code Section 66301 that prohibits disciplinary action against students based on behavior protected by the First Amendment.

B. CSUF Academic Dishonesty Policy

Academic dishonesty includes but is not limited to cheating on examinations or assignments, unauthorized collaboration, plagiarism, falsification/fabrication of university documents, any act designed to give unfair academic advantage to the student (such as, but not limited to, submission of essentially the same written assignment for two courses without the prior permission of the instructor), assisting or allowing any of these acts, or the attempt to commit such acts.

Cheating is defined as the act of obtaining or attempting to obtain credit for work by the use of any dishonest, deceptive, fraudulent, or unauthorized means. Examples of
cheating include, but are not limited to, the following: using notes or aides (including electronic devices) or the help of other students on tests and examinations in ways other than those expressly permitted by the instructor, or any acts which defeat the intent of an examination, plagiarism as defined below, and collaborating with others on any assignment where such collaboration is expressly forbidden by an instructor. Violation of this prohibition of collaboration shall be deemed an offense for the person or persons collaborating on the work, in addition to the person submitting the work. Documentary falsification includes forgery, altering of campus documents or records, tampering with grading procedures (including submitting altered work for re-grading), fabricating lab assignments, or altering or falsifying medical excuses or letters of recommendation.

Plagiarism is defined as the act of taking the work (words, ideas, concepts, data, graphs, artistic creation) of another whether that work is paraphrased or copied in verbatim or near verbatim form and offering it as one’s own without giving credit to that source. When sources are used in a paper, acknowledgment of the original author or source must be made through appropriate citation/attribute and, if directly quoted, quotation marks or indentations must be used. Improper acknowledgment of sources in essays, papers, or presentations is prohibited.

The initial responsibility for detecting and dealing with academic dishonesty lies with the instructor concerned. An instructor, who believes that an act of academic dishonesty has occurred, is obligated to discuss the matter with the student(s) involved. The instructor should possess reasonable evidence with respect thereto, such as documents or personal observation. In this meeting, and throughout the process, every effort should be made to preserve the integrity of the educational relationship between instructor and student. The student should be given the opportunity to respond to the complaint. If the violation is discovered during the offering or grading of the final exam, the instructor may assign a mark of “RP” until the instructor has an opportunity for such a meeting. Also because the student may challenge the allegation, he or she must be allowed to attend all classes and complete all assignments until the appellate process is complete. When necessary, such discussion may be conducted by telephone or electronic mail.

However, if circumstances prevent consultation with student(s), the instructor may assign an appropriate academic sanction (subject to student appeal). An instructor who is convinced by the preponderance of the evidence (the greater weight of the credible evidence) that a student is responsible for academic dishonesty, shall:

1. Assign an appropriate academic penalty, including, but not limited to: oral reprimand; “F” or “O” on the assignment; grade reduction on assignment or course; or “F” in the course. Factors to take into consideration in assigning a grade sanction include: normative sanctions for comparable acts, severity of the offense (academic gain or potential academic gain if the action had gone undetected), harm or potential harm to other students in the class, premeditation of the act.

2. Report to the student(s) involved, to the department chair, and to the Dean of Students Office, Judicial Affairs, the alleged incident of academic dishonesty, including relevant documentation, actions taken by the instructor including grade sanction, and recommendations for additional action that he/she deems appropriate. The written report should be distributed as soon as possible, preferably within 15 calendar days from discovery, but not later than 30 calendar days after the first day of classes of the regular semester (fall or spring) following the grade assignment.

The Dean of Students Office, Judicial Affairs, shall maintain a disciplinary file for each case of academic dishonesty with the appropriate documentation. Students shall be informed that a disciplinary file has been established and that they have an opportunity to appeal the actions of the instructor under the Academic Appeals
Policy. Dean of Students Office, Judicial Affairs may initiate disciplinary proceedings under Title 5, Section 41301 and Executive Order 1043. Sanctions which may be assessed include but are not limited to: warning; probation; educational sanctions; removal from academic program; suspension; expulsion; denial of admission or enrollment in university classes including Extended Education.

When two or more incidents involving the same student occur, the Dean of Students Office, Judicial Affairs shall initiate disciplinary proceedings. A student may appeal any sanction assessed for a charge of academic dishonesty under UPS 300.030, “Academic Appeals.” If the Academic Appeals Board accepts the student’s appeal then the disciplinary file will be purged. If a student does not appeal the instructor’s action or if the Academic Appeal Boards rejects the student’s appeal the disciplinary file will be maintained in a confidential file in the Dean of Students Office, Judicial Affairs for a minimum of seven years. Disciplinary probation and suspension are noted on the student’s academic record during the term of the probation or suspension. A permanent notation will be made on a student’s academic record if he or she is expelled from the university. A second academic integrity violation usually results in suspension from the university for a period of time.

In order to facilitate due process and to insure that a student knows that academic dishonesty is subject to action, this policy shall be published in the Catalog and Student Handbook. Copies of this policy shall also be available in every department office, the Dean of Students Office, and in the Office of the Vice President for Student Affairs.

C. Appeals Regarding Academic Dishonesty

When a faculty member(s) has alleged that a student, individually or as part of a group, has performed an act of academic dishonesty and has penalized the student for the act under UPS 300.021, Academic Dishonesty Policy, the student has a right to contest the allegations and/or the penalty. Because the university presumes that students act honestly, a charge of academic dishonesty will only be upheld if the faculty member provides a preponderance of the evidence to show that the student performed an act of academic dishonesty. Charges of academic dishonesty must be assessed on an individual basis.

Procedure:
1. The student shall make every effort to resolve the allegation by consulting the faculty member.
2. If the student believes the allegation has not been resolved by consultation, the student shall consult with the department chair, coordinator, or other appropriate administrator having immediate supervision of the faculty member. It is recommended that the department chair, coordinator, or other appropriate administrator maintain a written record of such consultation and/or its results. Failing here, the student shall consult with the dean of the college concerned or his/her designee.
3. If the student is not satisfied with the results of the consultation process, the student may appeal in writing to the Academic Appeals Board. The Coordinator of Academic Appeals receives all written appeals. The student’s appeal shall state specifically the nature of the allegation and the remedy requested; describe the student’s attempts to resolve the allegation informally; and contain any supporting documentation such as exams, papers, assignments and/or other corroborating documents.
4. The Coordinator shall within two calendar weeks during the regular semester provide the faculty member (or department chair, if necessary) with a copy of the appeal. The faculty member (or department chair, if necessary) shall within three calendar weeks during the regular semester (fall or spring) following the grade assignment provide the Academic Appeals Board with a written response to the student’s allegations.

5. The student’s written appeal and responses are confidential and available only to the Board members, Coordinator, and reporting faculty under section 4. After the Board has reached a decision the student may see the file, but cannot make copies of the contents.

6. After consideration of the documents submitted by the parties, the Board shall decide either to hold a hearing or to dismiss or uphold the appeal.

7. If the Board issues a notice of hearing, the notice shall state the time and place of the hearing. The Academic Appeals Board shall confirm that both parties have received the notice.

(a) The hearing shall be closed to the public. Either party may be represented by a person from the university community. Neither the Academic Appeals Coordinator nor any member of the Academic Appeals Board may represent either party. According to Presidential Directive No. 9, the representative may not be a licensed or practicing attorney. If either party is being represented at the hearing, the party shall notify the Board in writing of the name and address of the representative at least ten calendar days prior to the hearing. Except for the party or parties, a representative of each party, the board members, and the Academic Appeals Coordinator, no one else shall be present at the hearing. Any exception to this restriction shall be at the discretion of the Academic Appeals Board. At its discretion the Board may hear each party separately unless either party requests a joint hearing. Three Board members must be present to conduct a hearing.

(b) At the hearing the Board shall receive all evidence and testimony of a type responsible parties are accustomed to relying upon in the normal course of university business.

8. During its deliberations (based on the written submissions, or after a hearing) the Board will determine whether a preponderance of the evidence establishes that the student performed an act of academic dishonesty. A majority (more than half) of those participating in the vote (those members casting a “yes” or “no” vote) is necessary to sustain an allegation of academic dishonesty. The decision of the Board is final. The Board shall notify both parties of its decision in writing, including the grounds for the Board action.

9. If the allegation of academic dishonesty is upheld, the penalty assessed by the faculty member shall become permanent. The Board shall notify the Associate Dean of Student Affairs, Judicial Affairs in writing.

10. If the Board does not find that academic dishonesty occurred,

(a) All the Board’s case files shall be purged at the end of the following semester. The Board shall notify the Associate Dean of Student Affairs, Judicial Affairs in writing.

(b) If the Board designates a specific grade change, the faculty member has ten working days to adopt the remedy as his/her own. If the faculty member refuses to do so, the Board Chair shall implement the change.

(c) If the Board recommends alternatives, the Department Chair shall appoint an ad hoc committee of qualified tenured faculty to select from the
recommendations. The process shall be completed within 30 calendar days of the notification of the Board’s decision.

(d) The ad hoc department committee shall have the authority to carry out those duties assigned to it by the Board. The ad hoc committee must provide the Board a written rationale explaining the basis for its decision. Such rationale shall become part of the record of the appeal. The ad hoc committee recommendation and rationale shall be signed by all members of the committee. The recommendation, rationale, and all submitted documentation shall be made available to the reporting faculty member.

11. If, in the opinion of the Board, cases are related, the Board may hear and decide cases consolidated by Board action. The Board shall notify all parties of the consolidation.

D. Appeals Regarding Capricious or Arbitrary Assignment of a Grade

Faculty members have the sole right and responsibility to provide careful evaluation and timely assignment of appropriate grades. In the absence of compelling reasons, such as instructor or clerical error, prejudice or capriciousness, the grade assigned by the instructor of record is to be considered final.

A student who alleges capricious, arbitrary or prejudicial (collectively “arbitrary”) treatment in the assignment of a course grade ("grade") has a right to contest that grade. Because the university presumes that the individuals who assigned the grade ("faculty member") were fair and objective in the assignment of that grade, a grade will be upheld unless the student presents a preponderance of the evidence that the faculty members acted arbitrarily. A faculty member’s normal exercise of professional judgment will not support a charge of arbitrary treatment.

Procedure:

1. The student shall consult with the faculty member.

2. If the student is not satisfied with the result of the appeal to the faculty member, the student shall consult with the department chair, coordinator, or other appropriate administrator having immediate supervision of the faculty member. It is recommended that the department chair, coordinator, or other appropriate administrator maintain a written record of such consultation and/or its results. Failing here, the student shall consult with the dean of the college concerned or his/her designee.

3. If the faculty member is unable or refuses to participate, the department chair shall assume responsibility for initiating grade changes deemed to be justified. The department chair shall consult with an ad hoc faculty committee composed of qualified tenured faculty members with academic training comparable to the instructor of record and established by the department in fulfilling this responsibility. In addition, the department chair shall provide the ad hoc committee with certification of a “good faith” effort to consult with the faculty member named in the appeal whenever such consultation is possible and appropriate. The ad hoc committee recommendation and rationale shall be signed by all members of the committee. The recommendation, rationale, and all submitted documentation shall be made available to the faculty member (in section 5).

4. If the student is not satisfied with the result of the consultation process, the student may appeal in writing to the Academic Appeals Board.

5. The Coordinator of Academic Appeals receives all written appeals. The student’s appeal shall state specifically the nature of the allegation(s) and the remedy requested; describe the student’s attempts to resolve the allegation informally; and
contain any supporting documentation such as the class syllabus, exams, papers, assignments and/or other corroborating documents. The Coordinator shall within two calendar weeks during the regular semester provide the faculty member (or department chair if necessary) with a copy of the appeal. The faculty member (or department chair if necessary) shall within three calendar weeks during the regular semester following the grade assignment provide the Academic Appeals Board with a written response to the student’s allegations.

6. The student’s written appeal and responses are confidential and available only to the Board members, Coordinator, and faculty member whose grading is being appealed. After the Board has reached a decision the student may see the file, but cannot make copies of the contents.

7. After consideration of documents submitted by the parties, the Board shall decide either to hold a hearing or to dismiss or uphold the appeal. If the Board issues a notice of hearing, the notice shall state the time and place of the hearing. The Academic Appeals Board shall confirm that both parties have received the notice. The hearing shall be closed to the public. Either party may choose a representative from the university community. Neither the Academic Appeals Coordinator nor any member of the Academic Appeals Board may represent either party. According to Presidential Directive No. 9, the representative may not be a licensed or practicing attorney. If either party is being represented at the hearing, that party shall notify the Board in writing of the name and address of the representative at least ten calendar days prior to hearing. Except for the party or parties, a representative of each party, the Board members, and the Academic Appeals Coordinator, no one else shall be present at the hearing. Any exception to this restriction shall be at the discretion of the Academic Appeals Board. At its discretion the Board may hear each party separately unless either party requests a joint hearing. Three Board members must be present to conduct a hearing.

8. The Board shall receive all evidence and testimony at the hearing of a type responsible parties are accustomed to relying upon in the normal course of university business.

9. During its deliberations (based on the written submissions, or after a hearing), the Board will determine whether a preponderance of the evidence establishes that the grade was assigned in an arbitrary manner. A majority (more than half) of those participating in the vote (those members casting a “yes” or “no” vote) is necessary to sustain an allegation of arbitrary treatment.

10. If the Board decides that the grade was not assigned in an arbitrary or capricious manner, then it shall so notify both parties in writing of its findings and the rationale.

11. If the Board decides that the grade was assigned in an arbitrary or capricious manner, then it shall so notify both parties in writing of its findings and the rationale. This notice shall contain a recommended remedy. If the Board designates a specific grade change, then the faculty member has ten working days to implement the change. If the faculty member refuses to do so, then the Board Chair shall implement the change. If the Board recommends alternatives, then the Department Chair shall appoint an ad hoc committee of qualified tenured faculty to select from the recommendations. The process shall be completed within 30 calendar days of receipt of the Board recommendations.

All sides in the dispute, including the affected faculty member who taught the course, shall be fully informed about the ongoing process and shall be provided with all submitted documentation pertaining to the issue which is being adjudicated. All written communications including a summary of the
deliberations and a rationale for the decision must be presented and available for inspection in order to keep the process fully transparent to the parties involved. No anonymous committees or persons are to be involved in this process, except students on the panel shall retain full anonymity.

12. The ad hoc department committee shall have the authority to carry out those duties assigned to it by the Board. The ad hoc committee must provide a written rationale explaining the bases for its decision. Such rationale shall become part of the record of the appeal. The ad hoc committee recommendation and rationale shall be signed by all members of the committee. The recommendation, rationale, and all submitted documentation shall be made available to the faculty member (in section 5).

E. Timing of Appeals Process
The student shall initiate either appeals process by contacting the faculty member within 30 calendar days of the first day of classes of the regular semester (fall or spring) following the grade assignment. The written appeal shall be submitted within 60 calendar days of the first day of classes of the regular semester (fall or spring) following the grade assignment. The university will attempt to conclude each appeal within 180 calendar days from the date on which the student submitted the written appeal to the Coordinator of Academic Appeals. Appeals will normally be heard during either the fall or spring semesters except when special situations occur.

F. Special Situations: Graduating Seniors and Continuing Graduate/Post Baccalaureate Students
In special circumstances, an Ad Hoc Appeals Board designated by the Executive Committee of the Academic Senate may hear spring semester grade appeals. Every effort shall be made to complete the appeal process before the end of June. Academic Appeals Board members serving during the spring semester in question shall be asked to serve on the summer committee; if not available, the Executive Committee of the Academic Senate shall designate other faculty and/or students, preferably previous Board members, to fill a quorum. The special circumstances warranting formation of an Ad Hoc Committee include:

1. When a student who has petitioned to graduate in May wishes to appeal a grade in a course in his/her final spring semester in order to be eligible to graduate; or
2. When a disqualified graduate student wishes to appeal a grade received in a spring semester in order to be granted enrollment in the subsequent summer or fall term; or
3. When a post baccalaureate student in a certificate program wishes to appeal a grade received in a spring semester in order to be granted enrollment in the subsequent summer or fall term.

In these cases, the faculty member involved will be invited by the Appeals Board to provide feedback to the Appeals Board himself/herself or may waive this right and allow the chair of his/her department or another faculty member of his/her choice to provide such feedback on his/her behalf to the Appeals Board.

G. Review of Appeals Procedure
If allegations are raised that any of the above appeal processes was not followed, then the Associate Dean of Student Affairs, Judicial Affairs will review the appeal to determine if the above procedures were followed and if any procedural error was material. Within three weeks, if it is determined that procedures were followed and/or that any procedural error was immaterial, then the decision of the Board will stand. If it is determined that a failure to follow procedures represented a material error, then the matter will be referred back to the Board with a written explanation of the error.
H. Coordinator of Academic Appeals

The Coordinator of Academic Appeals shall be chosen by the Vice President for Student Affairs. The Vice President for Academic Affairs and the Executive Committee of the Academic Senate shall have a consultative role in the making of that appointment. The duties of the coordinator shall include:

1. Maintaining a record of all academic appeals and each September providing to the President and the Academic Senate a written report listing the number of appeal cases heard and the disposition of each case during the previous academic year;
2. Coordinating the Academic Appeals Board by convening the Board, providing them with the appropriate background information, scheduling all necessary meetings, hearings, and witnesses;
3. Interpreting university policy to students concerning grading procedures and students’ rights and responsibilities;
4. Interviewing students and faculty involved in appeals complaints and discussing the problems with department chairs and college deans as necessary, informally mediating the appeals where possible;
5. Ensuring the confidentiality of all subject matter and that the rights of all parties are protected;
6. Exhibiting neutrality in this process and being a facilitator rather than an advocate for either side; and
7. Making recommendations to the Academic Appeals Board and to the appropriate Academic Senate committee when changes in university policy appear to be necessary.

2006
HAZING POLICY

California State University, Fullerton expects that all students, recognized student organizations, and affiliated groups will observe and fully comply with University Policy in accordance with Title 5 Education Code, Section 41301 (Standards for Student Conduct) and State of California Penal Code Section 245.6 (proscribes criminal and civil penalties for individuals who haze). The Dean of Students Office shall ensure that all students, recognized student organizations, and affiliated student groups are informed on an annual basis about education policies specific to hazing.

All recognized student organizations affiliated with a national or local governing body must adhere to regulations set forth by their respective organizations concerning hazing. It is the responsibility of all students, recognized student organizations, and affiliated student groups to be informed of all of the above mentioned regulations.

University policy with respect to hazing prohibits all students, recognized student organizations, and affiliated student groups from engaging collectively or individually in any of the following practices as part of any program or general activity, regardless of the person’s willingness to participate. This list is intended to provide examples of hazing and should not be considered all inclusive.

1. Any type of harm such as paddling, beating, striking, branding, tattooing, body piercing, placing of a harmful substance on the body, or similar activity;

2. Any type of physical activity, such as deprivation of sleep (6 to 8 hours per day minimum), food, or maintaining hygiene; exposure to the elements; confinement in a small space; calisthenics; or other activity that subjects the student to a risk or harm or that adversely affects the mental or physical health or safety of the student;

3. Such activities as new member scavenger hunts, new member ditches, kidnaps, and the like, as well as any activity that is mandatory for new members only, and is not educational in nature;

4. Any activity involving consumption of a food, liquid, alcoholic beverage, liquor, drug, or other substance which subjects the student to an unreasonable risk or harm or which adversely affects the mental or physical health of the student;

5. Nudity or forcing or allowing students to dress in any unusual or awkward fashion;

6. Any activity that intimidates or threatens the student with ostracism, that subjects the student to unreasonable mental stress, shame, or humiliation, or that adversely affects the mental health or dignity of the student, or discourages the student from entering or remaining registered in an educational institution, or that may reasonably be expected to cause a student to leave the organization or the institution rather than submit to acts described in this section.

State of California Hazing Policy

Title 5. California Code of Regulations 41301 Standards for Student Conduct

“(8) Hazing, or conspiracy to haze. Hazing is defined as any method of initiation or pre-initiation into a student organization or student body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury to any former, current, or prospective student of any school, community college, college, university, or other educational institution in this state (Penal Code 245.6), and in addition, any act likely to cause physical harm, personal degradation or disgrace resulting in physical or mental harm, to any former, current, or prospective student of any school, community college, college, university, or other educational institution. The term “hazing” does not include customary athletic events or school sanctioned events. Neither the express or implied consent of a victim of hazing, nor the lack of active participation in a particular hazing incident is a defense. Apathy or acquiescence in the presence of hazing is not a neutral act, and is also a violation of this
A group of students acting together may be considered a ‘student organization’ for purposes of this section whether or not they are officially recognized.

(State of California Penal Code 245.6)

(a) It shall be unlawful to engage in hazing, as defined in this section.

(b) “Hazing” means any method of initiation or pre-initiation into a student organization or student body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury to any former, current, or prospective student of any school, community college, college, university, or other educational institution in this state. The term “hazing” does not include customary athletic events or school-sanctioned events.

(c) A violation of this section that does not result in serious bodily injury is a misdemeanor, punishable by a fine of not less than one hundred dollars ($100), nor more than five thousand dollars ($5,000), or imprisonment in the county jail for not more than one year, or both.

(d) Any person who personally engages in hazing that results in death or serious bodily injury as defined in paragraph (4) of subdivision (f) of Section 243 of the Penal Code, is guilty of either a misdemeanor or a felony, and shall be punished by imprisonment in county jail not exceeding one year, or by imprisonment in the state prison.

(e) The person against whom the hazing is directed may commence a civil action for injury or damages. The action may be brought against any participants in the hazing, or any organization to which the student is seeking membership whose agents, directors, trustees, managers, or officers authorized, requested, commanded, participated in, or ratified the hazing.

(f) Prosecution under this section shall not prohibit prosecution under any other provision of the law.

Reporting Allegations of Hazing

Allegations of violation of state law or university policies regarding hazing are handled by the Dean of Students Office or University Police for appropriate disciplinary and/or criminal investigation and action. As outlined in the Executive Order 1073, Student Conduct Procedures, and the Student Organization Judicial Procedures, due process will be followed including right of appeal. Nothing in this policy is intended to prevent or prohibit a victim of hazing from filing a complaint with the police in addition to reporting the event(s) to the Dean of Students Office, as described above.

Vice President for Student Affairs
January 2013
POLICY ON AMOROUS OR SEXUAL RELATIONSHIPS BETWEEN FACULTY, STAFF AND STUDENTS

Amorous or sexual relationships between faculty or staff and a member of the University community for whom they have teaching, evaluative, advocacy, counseling, advising or supervisory responsibilities are unacceptable, even if the parties involved view such a relationship as consensual.

The University will regard such behavior as unprofessional, unacceptable and potentially subject to reprimand or disciplinary procedures. The University expects faculty and staff to:

(a) refrain from taking any teaching, evaluative, advocacy, counseling, advising, or supervisory role involving an individual with whom he/she is having an amorous or sexual relationship;

(b) remove himself/herself from any teaching, evaluative, advocacy, counseling, advising or supervisory role involving an individual with whom he/she is having an amorous or sexual relationship.

Any supervisor who is aware of a faculty or staff member who has a teaching, evaluative, advocacy, counseling, advising, or supervisory responsibility for an individual with whom he/she is having an amorous or sexual relationship shall take action to remove that individual from his/her position of responsibility or otherwise resolve the problem.

A member of the campus community who fails to withdraw from participation in activities or decisions that may reward or penalize the party with whom he/she is having a consensual relationship will be deemed to have violated this policy.

It is the responsibility of department chairs, deans, supervisors and managers to take all necessary and appropriate steps, beginning with informal steps to resolution, to prevent and correct problems stemming from amorous or sexual relationships. If informal steps for resolution are unsuccessful, the matter will be pursued via the formal corrective action or complaint process listed in the sexual harassment complaint procedures.

It is the responsibility of any member of the campus community who may be uncertain about the propriety of consensual amorous or sexual relationships to consult with campus personnel knowledgeable about professional standards, ethical issues, and sexual harassment.

Dissemination of Policy, Education and Training

The President shall take appropriate measures to ensure:

♦ that this policy is widely and frequently disseminated on campus, including among students; and that

♦ other appropriate means of educating the community, such as periodic workshops, are pursued.

It shall be the responsibility of managers, supervisors, deans and department chairs to ensure that employees or students under their direction or supervision are informed of this policy.

NONDISCRIMINATION POLICY:
A COMMITMENT TO VALUING DIVERSITY

I. Preamble

Universities have a deep obligation to value diversity among people and among ideas
and, at the same time, not impose any specific ideology on students, faculty, staff, or administrators. For appreciation of diversity -- in nature, in human culture, and certainly in ideas -- is fundamental to higher learning. The University's enterprise is enriched when diverse peoples are engaged in it. Beyond the profound moral value to be found in inclusiveness, a diverse campus community characterized by free and open communication fosters understanding of the alternative points of view that different groups can offer.

II. General Policy

It is the policy of California State University, Fullerton, to create and maintain an environment that values diversity, respects human dignity, is hospitable, equitable, and tolerant, and in which all persons are free from all forms of invidious discrimination or discriminatory harassment.

Mindful of its high calling to promote diversity in thought and to assure all students an appropriate learning and working environment, California State University, Fullerton:

1. Challenges and summons its students, faculty, staff and administration to promote a hospitable and equitable learning environment for all persons;
2. Asserts that tolerance for diversity shall be the norm for behavior on the part of all who are present on the campus;
3. Discourages the use of derogatory or disparaging language and other forms of expression and, particularly, condemns those who insult persons on the basis of race, ethnicity, national origin, ancestry, citizenship, religion, creed, sex, sexual orientation, marital status, age, disability, or veteran status.

III. Programmatic Responses

A. To achieve the high purpose of securing a hospitable and equitable learning and working environment for all persons, California State University, Fullerton commits itself to:

1. Encouraging ethnic, gender, and cultural diversity in its faculty, student body, staff and administration;
2. Promoting a University curriculum that recognizes the contributions and achievements of our diverse human community;
3. Sponsoring programs and activities that increase the awareness of the value of diversity;
4. Supporting organizations that foster inter-group understanding and harmony;
5. Offering training to faculty, staff, administrators and student leaders in promoting harmonious inter-group interactions and conflict resolution;
6. Periodically assessing the success of all units within the University in furthering these goals and objectives.

B. While cherishing and protecting freedoms of speech and expression that are the very basis of the higher educational enterprise, the University will:

1. Discourage instances of intolerance, discrimination, or harassment not subject to sanctions under sections 2-5 below. Workshops, seminars, or other learning opportunities focused on the nature of bigotry and prejudice may be appropriate responses to such behaviors;
2. Invoke, where necessary, the sanctions authorized for instances of intentional discrimination that are prohibited by system-wide Executive Orders for the California State University, and/or are prohibited by state and federal law;
3. Invoke, where necessary, the sanctions authorized under standard civil and
criminal codes for intentionally threatening individuals, damaging property, or disrupting the educational enterprise, specifically including those instances of threat, damage and disruption premised on intolerance and discrimination;

4. Take appropriate actions in the face of student misconduct as provided in Title 5, California Code of Regulations, including Section 41301(k) which prohibits abusive behavior directed toward, or hazing of, any member of the campus community;

5. Take actions in the face of misconduct, including misconduct premised on intolerance and discrimination, by staff and faculty as appropriate in the context of collective bargaining agreements; and in the instance of administrators and other employees not covered by bargaining agreements, in the context of Executive Order 419 (“System-wide Grievance Procedure - Discrimination Complaints for Employees Not Covered by Existing Regulation” or Executive Order 675 System-wide Complaint Procedure for Discrimination Complaints by Employees Not Eligible to File a Discrimination Complaint or Grievance Under a Collective Bargaining Agreement.

IV. Guidelines for Establishing Campus Procedures for the Resolution of Complaints Filed Under the Provisions of the CSUF Nondiscrimination Policy

The procedure shall conform to the following general principles:

1. The first and prior principle shall be to protect constitutionally protected speech, specifically including speech in the classroom. No prior restraint upon expression shall be embodied in a code of conduct or other such regulations designed to sanction invidious harassment.

2. The second principle, and next in order of priority, shall be a preference for informal resolution of minor conflicts and disputes. Major disputes and recurring minor incidents of intentionally discriminatory behavior should be addressed through formal resolution.

3. The third principle, and next in order of priority, shall be confidentiality, but only insofar as confidentiality may be consistent with due process.

4. The fourth principle, and next in order of priority, shall be enforcement of the policy and procedures in a manner consistent with due process protections, including the right of any individual charged with violation to notice and a hearing.

5. The fifth principle, and last in order of priority, shall be the maintenance of records adequate for statistical and policy review. Record keeping must not be inconsistent with, and must not take UPS 240.000 priority over, confidentiality and a preference for informal dispute resolution.

Whenever a Campus determines that a Complaint is outside the scope of this executive order, the Campus shall promptly so notify the Student in writing.

Who May File Complaints

Subject to the exceptions set forth below, any Student may file a complaint of Discrimination, Harassment or Retaliation under this executive order.

1. Complaints of Student employees whose Discrimination, Harassment or Retaliation complaints arise out of their employment. Such complaints shall be governed by Executive Order 928, or any superseding executive order, if applicable.

2. Complaints by a Student about his/her academic adjustments and/or accommodations to a University's educational program related to his/her Disability. Such inquiries and complaints shall be directed to the Campus Director, Disabled Student Services (DSS), and shall be governed by the Campus DSS complaint procedure.

Grade Appeals That Allege Discrimination, Harassment or Retaliation

Grade appeals that allege Discrimination, Harassment or Retaliation shall proceed concurrently: (i) under Campus procedures per Executive Order 1037; and (ii) under this executive order. However, the Campus grade appeal procedure shall be placed in abeyance until such time as the Campus and any appeal processes under Article VI and/or Article VII have concluded. The final determination under this executive order regarding whether Discrimination, Harassment or Retaliation occurred will be provided to the Campus grade appeal committee. The committee shall be bound by such determination when considering the grade appeal request under Executive Order 1037.

Grade appeals that do not allege Discrimination, Harassment or Retaliation shall be filed under Campus procedures, per Executive Order 1037, or any superseding executive order, if applicable.

Informal Resolution - Campus Level

Students who believe they are or may have been victims of Discrimination, Harassment or Retaliation may initiate the Informal Resolution process prior to, or instead of, filing a Complaint. However, it is not appropriate in such cases for a Student to be required to "work out the problem" directly with the Accused; and in no event should any meeting between the Student and the Accused occur without appropriate involvement by the University (e.g., counselor or appropriate administrator). The Student must be notified of the right to end any such informal process at any time.

Upon receipt of a Student's concern(s), the Director of Diversity & Equity Programs/Title IX Director or designee shall promptly meet with the Student to discuss his or her concern(s). During the pendency of the Informal Resolution process, the timeline to file a Complaint shall be extended for a period of no longer than twenty (20) Working Days. Thus, under Article VI. B, a Complaint may be filed no later than forty (40) Working Days after the end of the academic term in which the most recent alleged act of Discrimination, Harassment or Retaliation occurred.

If the Student's concern(s) alleges Sexual Discrimination (including but not limited to, Sexual Harassment or Sexual Violence), the Student shall promptly be referred to the Title IX Coordinator. The Title IX Coordinator shall meet with the Student and undertake any and all applicable steps described in Article VI. D. In cases alleging Sexual Violence, the Student shall also be advised to immediately file a Complaint under Article VI (Campus Formal Level). Informal resolution is not appropriate when Sexual Violence is alleged.
The Campus will attempt to resolve the Student's concern(s) quickly and effectively. The Director of Diversity & Equity Programs/Title IX Director or designee shall meet with the Student, the Accused, and any other person(s) or witness(es) determined by the Director of Diversity & Equity Programs/Title IX Director to be necessary for a resolution of the matter, to review the allegations and any responses. Informal Resolution may take the form of a negotiated resolution facilitated by the Director of Diversity & Equity Programs/Title IX Director.

The Student or the Director of Diversity & Equity Programs/Title IX Director may at any time elect to terminate the process. The Director of Diversity & Equity Programs/Title IX Director shall promptly notify the Student and the Accused in writing that the Informal Resolution process has terminated, and the effective date thereof.

Both the Student and the Accused shall keep the details of the Informal Resolution process confidential until the process is concluded.

If resolution is reached by these informal means, a record of the resolution shall be memorialized in a writing signed by the Student and maintained in accordance with applicable Campus recordkeeping policies. The matter shall be considered closed and the Student is precluded from filing a Complaint or appeal concerning the same incident, except where the terms of the informal resolution have been violated or have been ineffective in stopping the Discrimination, Harassment, or Retaliation. If resolution is not reached, the Student shall be informed about how to file a Level I Complaint (Campus Level).
