# TimeClock Plus Mobile App
# Installation Instructions

To download and connect the mobile app, please follow the steps below.

**1.** Scan the QR codes:

**Apple App Store**          **Google Play Store**
          

          

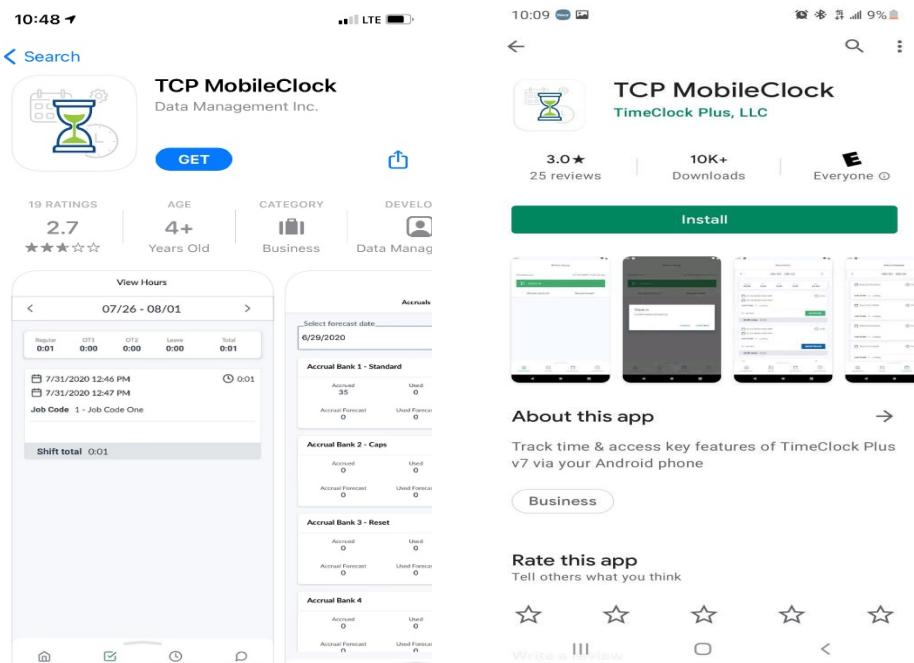

**3.** Tap Manual setup above the Next button
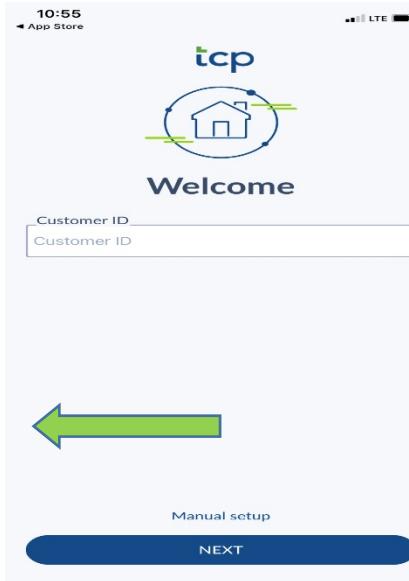

**4.** On the Server information screen, select HTTPS for the Scheme. Enter the following Host and Post information. Then tap Next.
Host: **182629.tcplusondemand.com**
Post: **443**

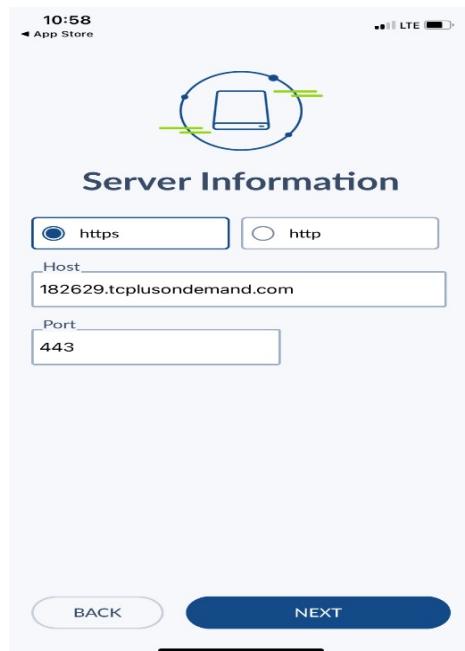

**5.** On the Namespace screen, enter **182629**, tap Next.
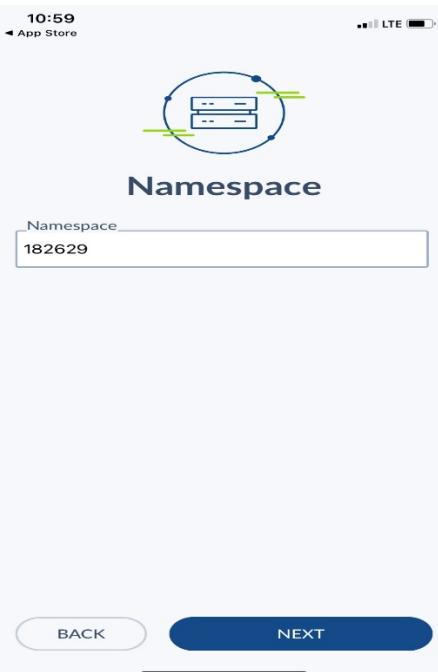

**6.** Tap Next.

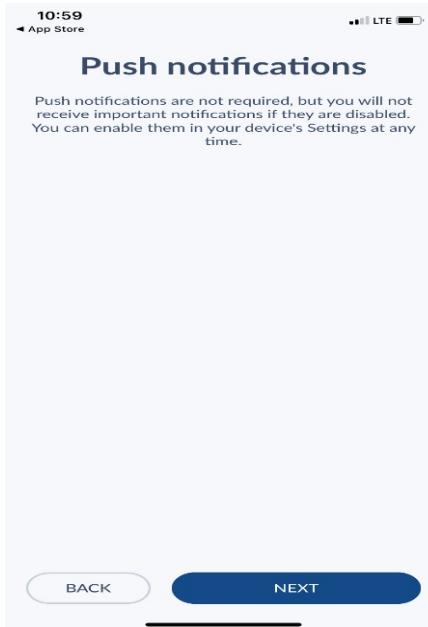

**7.** On the Log On screen, enter your CWID, tap Next.

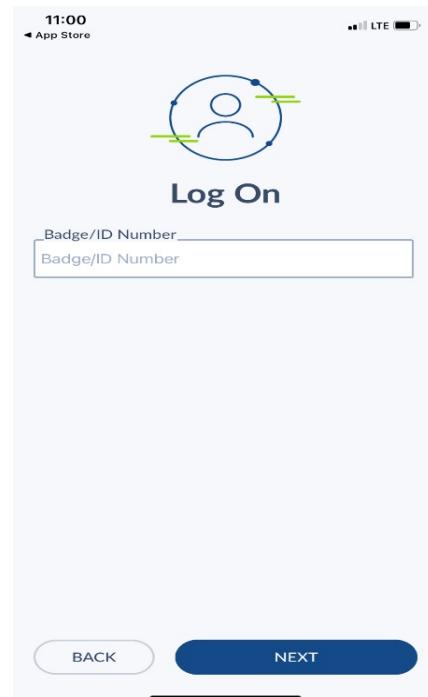

**8.** You will now be logged into the app and on the Dashboard.
