2000 NCAA DIVISION I GRADUATION-RATES REPORT

Graduation-Rates Data (1993 and prior entering classes)

Undergraduate-Enrollment Data (Fall 1998)

GRADUATION

THE NATIONAL COLLEGIATE ATHLETIC ASSOCIATION
P.O. Box 6222
Indianapolis, Indiana 46206-6222
917/317-6222
http://www.ncaa.org
October 2000

Edited By: Marty Benson, *Communications Coordinator.*

Distributed to CEOs of all NCAA institutions, conference commissioners, high-school guidance counselors and junior college athletics departments.

NCAA, NCAA logo and NATIONAL COLLEGIATE ATHLETIC ASSOCIATION are registered marks of the Association and use in any manner is prohibited unless prior approval is obtained from the Association.

Note: Readers who have questions about the material in this book or the methodology used should call the NCAA Research Department at the number listed above for the NCAA national office rather than contacting the editor.

DIVISION I
INTRODUCTION

Legislation mandating public disclosure of graduation rates was adopted by the Association at the 1990 NCAA Convention. The legislation, sponsored by the NCAA Presidents Commission and Council, stipulates that the Association's national office publish annually admissions and graduation-rates data on an institution-specific basis. Member institutions are required to distribute the institution-specific graduation-rates report to prospective student-athletes and to their parents pursuant to NCAA Bylaw 13.3.1.2.

This is a collection of the information submitted by each Division I member institution through the completion of the IPEDS Graduation Rates Survey and the NCAA Division I Graduation Rates Supplemental Form. Upon receipt in the national office, the completed forms were reviewed individually for accuracy and preliminary reports were submitted to the chief executive officer for verification. Institution-specific reports for NCAA Division I member institutions are included in this publication and appear in alphabetical order. In addition to the institution-specific reports, summaries of the data also are provided in this publication.

It is important to note that this is the third year of data collection using the IPEDS graduation-rates survey. While this instrument was very similar to the one formerly used by the NCAA, some small changes in definitions and reporting requirements might lead to slight changes in the data.

The data contained within each institution's report are similar to data that must be reported to the Department of Education as of July 1, pursuant to the Federal Student Right-to-Know and Campus Security Act.

As you review the data, it is our hope that the 2000 Official NCAA Graduation-Rates Report will provide useful information about the graduation rates and enrollment at NCAA Division I member institutions.

Executive Committee Chair

GRAHAM SPANIER
Division I Board of Directors Chair

DIVISION I GRADUATION-RATES REPORT INFORMATION

This information and the following graduation-rates reports have been prepared by the NCAA, based on data provided by member institutions, in compliance with NCAA Bylaw 30.1 and the Federal Student Right-to-Know and Campus Security Act. Each NCAA Division I member institution is required to distribute its individual report to prospective student-athletes and others, as specified in Bylaw 13.3.1.2.

Each individual report provides information about two groups of students at the institution identified at the top of the form: (1) all undergraduate students who were enrolled in a full-time program of studies for a degree and (2) student-athletes who received athletics aid from the institution upon initial enrollment. [Note: Athletics aid is a grant, scholarship, tuition waiver or other assistance from a college or university that is awarded on the basis of a student's athletics ability.]

Each individual report gives graduation information about students and student-athletes entering in 1993. This is the most recent graduating class for which the required six years of information is available. Each report provides information about student-athletes who received athletics aid in one or more of eight sports categories: football, men's basketball, baseball, men's track and field/cross country, men's other sports and mixed sports, women's basketball, women's track and field/cross country, and women's other sports. For each of those sports categories, each report includes information in seven self-reported racial or ethnic groups: American Indian or Alaska Native, Asian or Pacific Islander, Black, Hispanic, Non-Resident Alien, White, and Other (not included in one of the other six groups or not available) and the total (all seven groups combined).

A graduation rate (percent) is based on a comparison of the number (N) of students who entered a college or university and the number of those who graduated within six years. For example, if 100 students entered, and 60 graduated within six years, the graduation rate is 60 percent. It is important to note that graduation rates are affected by a number of factors: some students may work part-time and need more than six years to graduate; some may leave school for a year or two to work or travel; some may transfer to another college or university; or some may be dismissed for academic deficiencies.

Three measures of graduation rates are presented in each report: (1) freshman-cohort rate, (2) transfer-cohort rate, and (3) exhausted-eligibility rate. The freshman-cohort rate indicates the percentage of freshmen who entered during a given academic year and graduated within six years. The transfer-cohort graduation rate is calculated only for those student-athletes who transferred to an institution, and indicates the percentage of transfer student-athletes who graduated within six years of the entering class to which they were assigned. The exhausted-eligibility rate indicates the percentage of student-athletes who used all of their athletics eligibility at the institution and who had graduated by August 1999.

1.Graduation-Rates Data.

The box at the top of each graduation-rates report provides freshman-cohort graduation rates for all students and for student-athletes who received athletics aid at the college or university. [NOTE: Anytime a cell includes only one or two students, the data in that cell and one other will be suppressed so that no individual can be indentified.]

1-a. All Students. Provides the freshman-cohort graduation rates for all full-time degree-seeking students by race or ethnic group. It shows the rate for men who entered as freshmen in 1993-94, and the four-class average, which includes those who entered as freshmen in 1990-91, 1991-92, and 1992-93. The same rates are provided for women. The total for 1993-94 is the rate for men and women combined, and the four-class average is for all students who entered in 1990-91, 1991-92, 1992-93 and 1993-94.

1-b. Student-Athletes. Provides the freshman-cohort graduation rates and also the transfer graduation rates for student-athletes in each race and ethnic group who received athletics aid. Transfer rates include student-athletes who, based upon the number of credits accepted by the institution, were placed in the entering classes of 1990-91, 1991-92, 1992-93 or 1993-94.

1-c. Student-Athletes by Sports Categories. Provides the identified graduation rates as in 1-b for each of the eight sports categories. (The small letters indicate the value of N.)

1-d. Graduation Rates of Those Exhausting Eligibility. Provides the graduation rates of student-athletes who entered during the 1984-1993 academic years and exhausted their eligibility at the institution. The rate indicates the percentage who had graduated by August 1999.

2. Undergraduate Enrollment Data. (All students enrolled fall 1998-99.)

2-a. All Students. Indicates the number of full-time degree-seeking undergraduate students enrolled for the 1998 fall term and the number of men and women in each racial or ethnic group.

INTRODUCTION TO AGGREGATE REPORTS

The following reports are summaries of the data collected from Division I member institutions and contained in the graduation-rates disclosure form. These tables have been created to provide meaningful summaries of the graduation-rates and enrollment data that Division I institutions have provided to the NCAA. The information provides comparisons between students and student-athletes, and gender and racial groups. It also provides an overall look at the different sports categories included in the reports.

These reports have been divided into 6 categories that are groups of similar institutions. The categories are based on NCAA subdivision, size of institution and whether the institution is public or private. The categories are meant to reflect differences in institutional sizes and missions, and to place institutions with similar philosophies together.

The data included in these tables are sums of all data collected from institutions in a given category. In all cases, the columns labeled “N” in the following tables relate the total number of students within a reporting cell that were included in the group of institutions in question (e.g., in Division I there were 1,485 white football players who entered school in 1992).

The first table in the series presents data for the 312 Division I institutions that returned the graduation-rates disclosure form. The numbers in this table reflect the data about every institution that was included in the study.

The next three tables divide the institutions by NCAA Division I subdivisions, based upon the football programs that exist at these institutions. There are 112 Division I-A members, 119 Division I-AA respondents and 81 Division I-AAA members included.

The last two reports detail the data for the public and private schools that are members of Division I. The first of these reports contains data for all public institutions in the division. The final report provides similar data for all private schools within Division I.

It is hoped that these data will provide useful information about the graduation rates and enrollment at NCAA Division I institutions. It is also hoped that institutions will be able to use this information to compare themselves with similar institutions.

2-b. Student-Athletes. Identifies how many student-athletes were enrolled for the 1997 fall term and the number of men and women in each racial or ethnic group.

2-c. Student-Athletes by Sports Categories. Provides the enrollment data as identified in 3-b for each of the eight sports categories.

3. Standards for Transfer Student-Athletes.

These are standards that an institution uses to determine placement of transfer student-athletes in the appropriate class. For purposes of this report, there are two sets of standards: (1) standards that are the same as the NCAA minimums set forth in Bylaw 14.5 or (2) standards that exceed those specified minimums.
