

# BACHELOR OF SCIENCE DEGREE IN BIOLOGY

## Catalog Year Fall 2018 and after

**To progress smoothly through the Biology major:**

1. Be aware of pre-requisites for each course.
2. Track your academic progress using your TDA.
3. Attend Biology major advising each semester and visit your CNSM Student Success Team to review GE and graduation requirements.
4. Declare your concentration during the semester you are taking your last lower-division BIOL Core course.
5. Apply for Graduation through your Student Center at least two semesters before anticipated graduation (for example, for graduation at the end of spring, apply *before* the beginning of the fall semester).

**All Biology lower-division Core courses (16 units) must be completed prior to starting upper division Biology:**

- BIOL 151 (4/1)
- BIOL 152 (4/1)
- BIOL 251 (3) & 253L (1/1)
- BIOL 252 (3) & 254L (1/1)

**Upper-division Core (3 units) must be completed prior to graduation (or earlier, if needed as a prerequisite course):**

- BIOL 325 (3)

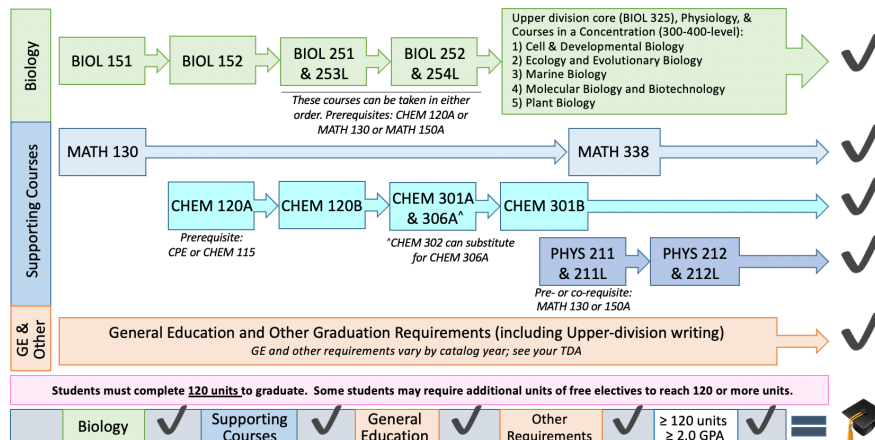

→ Units are shown in parenthesis as “total number of units for the course/lab units in the course”, i.e. (4/1)

**CHECKLIST:**

- Is your Catalog Year Fall 2018 or after? (Check first page of TDA.) **These worksheets are ONLY valid for Catalog Years Fall 2018 and after.**
- Sum the units of BIOL elective courses you plan to take (on your concentration page), and add 19 units for the Biol CORE courses = \_\_\_\_\_ units
  - **If the total BIOL units is < 40 units, you MUST take Free Elective courses to reach 40 units.** Free elective courses are any BIOL major 300-400 level courses. (NOT non-majors courses)  
**List Free Elective courses:** \_\_\_\_\_
- Are there ≥ 6 lab/field units included in your plan? List courses with lab/field: \_\_\_\_\_
  - ≥ 3 of the 6 lab/field units MUST come from courses in your concentration
- Is there a Physiology course included in your plan? List Physiology course: \_\_\_\_\_
- Are there ≥ 6 400-level units included in your plan? List 400-level courses: \_\_\_\_\_
- For EEB concentration only: Are there ≥ 14 units from EEB courses?
- Is your BIOL GPA ≥ 2.0? Current BIOL GPA: \_\_\_\_\_
- No more than a combined total of 6 units of BIOL 480 (3 max), 482 (2 max), 498 (3 max), and BIOL 499L (6 max) shall be counted toward the upper-division BIOL units required for the major. No more than 3 units of BIOL 499L shall be counted toward the 6 units of upper-division lab or field courses required for the major.

**Supporting courses, GE, and Other requirements:** Circle those courses below that you completed or are currently taking.

- Ensure that ≥ 9 units of your GE are upper division (300-400 level) from GE Areas B, C, and D.
- Upper-division Writing: ENGL 363 or ENGL 301 or BIOL 498

- If you take o-chem at a community college, you may need to take extra upper division units to reach the CSUF requirement of 40 upper division units.
- In unusual cases, the Math requirement can be fulfilled by taking Math 150A and 150B.
