### Student Testimonials

[Titan Takeover] adds depth to the learning experience we have at school. Titan Takeover program and the Career Center is one of the best parts of CSUF I've experienced so far in my journey here.

[It] was a great experience because I was able to network and learn about a company I potentially am interested in working with after I graduate. I highly recommend!

A lot of people never shadow in their field because they don't know how to make that connection. This program is that connection you may be missing to be able to experience a day in what your future career might be.

As a senior graduating, I wish I would have applied every year.

## Employer Testimonials

We have professionals who volunteer to sit with the students and talk to them about how to be successful in this industry, emerging technologies and skills to learn, and how to stand out in the interview process.

A great experience to have students to come in to our office to obtain more information about our industry and be engaged with different positions within our firm.

I think they had an enlightening experience, getting their hands on our state of the art cameras and equipment, in real, deadline driven situations. I would not hesitate to bring more Titan students in to shadow.
