BMW Plant Spartanburg.

Welcome to BMW Manufacturing Co., the lead producer of the X Model Vehicles. Here at the only BMW factory in the United States, we transform dreams into machines. Our associates are able to sharpen their skills at a world-class manufacturing company set in the fast growing Upstate of South Carolina.

This is a place where the philosophy of BMW thrives and the Ultimate Driving Machine is built.

Gen>NEXT Student Programs.

Are you our NEXT generation?

The purpose of BMW's student opportunities is to secure BMW's excellence and future mobility by attracting, inspiring, and preparing potential new talent. We are creating a qualified talent pool from our Gen>NEXT student programs that can potentially be hired into full-time positions.

Opportunities for Graduates

Professional Accelerated Cross-Functional Experience (PACE program)

This program consists of three eight-month assignments with line and project responsibilities in manufacturing, product / process engineering, and procurement / logistics. This is a multi- faceted development curriculum including leadership, project management, and technical disciplines. This program targets students graduating with a Bachelors or advanced degree.
