STEPS 1-5: ANNUAL ASSESSMENT REPORTING, ASSESSING AN EXISTING OUTCOME

A reminder that this guide is for existing outcomes with no changes to the Outcome (step 1) or Methods/Measures and Criteria for Success (step 2 and 3). Below are instructions for completing Data Collection and Analysis (Step 4) and Improvement Actions (Step 5) only.

1. Click on **Steps 1-5: Annual Assessment Report** in the left navigation menu.

2. You are taken to a list of ALL outcomes for your unit. Use the right scroll bar to locate the outcome you will be completing a report for.

3. Double click directly on the outcome that you will be reporting on for the period or click the ellipsis to the right of the outcome and click Open.

**Note:** By default, both active and inactive outcomes will display. Use the filter dropdown/caret if you would like to filter Outcome Status by "**In Use**" or "**No Longer In Use**". You may also filter by Outcome Type ("Learning outcome" or "Performance Outcome").
4. You may review Step 1: Outcome Statement, and Steps 2 & 3: Methods & Measures by clicking directly on each tab. These steps reflect your Assessment Plan and should remain static across reporting cycles.

- **IMPORTANT**: If changes are needed to your Outcome (Step 1) or your Methods and Measures (step 2), **DO NOT** create a new entry, nor delete any entries that have been used in prior cycles. Contact our office at data@fullerton.edu or extensions 2187 or 2015 for assistance with retiring the outdated methods and measures BEFORE reporting your data.

Once you have confirmed no changes are needed to your Outcome (step 1) and Methods and Measures (step 2):

5. Click on **Steps 4 & 5: Data and Improvement** tab.
6. You will see a history of assessment activity entries by cycle year. Notice that any filter settings you selected in prior steps will transfer over. In this example, the filter was set to “Active” to filter out any inactive outcomes. Use the filter drop downs to change the setting as needed.
7. Click on green circle with the plus (+) sign to report assessment activity for the current/new period.

**NOTE:** DO NOT type only “see attached”. The expectation is for this field to summarize the data collection process, data analysis, and interpretation of assessment findings (e.g. how do these results inform practice, how do results compare to prior assessment results, what are the trends, if this is the first time the outcome is assessed, indicate so).

For more information about reporting data collection and analyses, please visit the [OIEP website](#).

Examples include: How results get disseminated to faculty, what improvement actions were developed in response to analysis, findings, and interpretation (if any), who will carry out the improvement actions (if any), time frame for implementing the improvement actions (if any), timeframe for re-assessing the improvement actions (if any), if no improvement actions were identified, when outcome will be re-assessed.

For more information about reporting improvement actions, please visit the [OIEP website](#).
