Student Creative Activities and Research (SCAR!) Days
Monday, April 25, 2022 – May 6, 2022 VIRTUAL
Student Creative Activities and Research (SCAR) Days highlight undergraduate and graduate student work from all disciplines. Students from every college will share their work virtually and asynchronously between April 25th – May 6th. Sign up today to view SCAR Days 2022 presentations with your csu.fullerton.edu email. Once you have signed up, check out CSUF student SCAR Days presentations (you have to sign up first!). After viewing the posters, register to attend the virtual Outstanding Student Scholarly and Creative Activity Awards ceremony on May 6th from 3:00-4:00 pm. The recipients to be honored are listed below:

Outstanding Student Scholarly and Creative Activities Awards – 2022

**College of the Arts**
Mary Vasquez, Visual Arts, undergraduate
Mentor: Patricia Drew, part-time faculty of visual arts

Anna Lopez, School of Music, graduate
Mentor: Katherine Reed, associate professor of musicology

**College of Business and Economics**
John Gomez, Finance, undergraduate
Mentor: Kelly Ko, part-time faculty of finance

Kayvan Harirchi, Marketing, graduate
Mentor: Steven Chen, professor of marketing

**College of Communications**
Joshua Ayala, Communication Sciences and Disorders, graduate
Mentor: Dr. Phil Weir-Mayta, associate professor of communication sciences and disorders

**College of Education**
Erin Lion DeRosa, Educational Leadership, doctorate
Mentor: Carol Lundberg, professor of educational leadership

**College of Engineering and Computer Science**
Aaron Nguyen, Computer Engineering, undergraduate
Mentor: Dr. Jaya Dofe, assistant professor of computer engineering

Diana Fregoso-Sanchez, Civil and Environmental Engineering, graduate
Mentor: Dr. Xenia Wirth, assistant professor of civil and environmental engineering
College of Health and Human Development
Mary Storl, Social Work, masters
Mentor: Dr. Lidia E. Nuño, associate professor of criminal justice; Dr. Veronica Herrera, associate professor of criminal justice
Lisa Castaños, School of Nursing, doctorate
Mentor: Dr. Asma Taha, professor of school of nursing

College of Humanities and Social Sciences
Gabriel Ponce, Philosophy, undergraduate
Mentor: Dr. Irena Praitis, professor of English
Eric Daniel Cortez, Psychology, graduate
Mentor: Dr. Lisa Mori, professor of psychology

College of Natural Sciences and Mathematics
Evelyn Pohle, Mathematics, undergraduate
Mentor: Dr. Alison Marzocchi, associate professor of mathematics
José Guardado, Chemistry and Biochemistry, graduate
Mentor: Dr. Andrew Petit, associate professor of chemistry and biochemistry

ORSP Advanced Grant Writing Academy Applications due Friday
The Office of Research and Sponsored Projects (ORSP) is launching the 2022-23 Advanced Grant Writing Academy designed to enable faculty with previous experience submitting external grant proposals to be more efficient and effective grant writers.

This intensive program, offered to Tenured and Tenure-Track CSUF faculty will feature targeted workshops on core grantsmanship skills from June 2022 – May 2023. Faculty must be mid-career or senior faculty with experience writing a full grant proposal as PI (Principal Investigator) and must identify a federal funding opportunity or a resubmission in their application. Cohort participants are expected to attend all sessions, be fully engaged in the program, and develop a draft proposal to a federal agency to be submitted in fall 2023 or spring 2024.

Tenured or Tenure-Track CSUF faculty interested in applying to be part of the second cohort of the program should apply on InfoReady. Applications are due this Friday, April 29 by 5:00 PM.

Please direct inquiries about this program to ord@fullerton.edu.

Call for Interest: Titans Thinking Together (T3)
The Office of Research and Sponsored Projects (ORSP) is pleased to announce the launch of an initiative intended to enhance and support collaboration among faculty at CSUF. Called Titans Thinking Together (T³), the program aims to promote collaborative research that celebrates our steward of place identity by identifying and confronting our region’s most challenging problems and imagining its most unexpected opportunities.

T³, capitalizing on the collaborative research already taking place on campus, will provide guidance and incentives for a few new collaborative research umbrellas and create opportunities for students through faculty-student research. The program will pull together faculty expertise around critically important problems facing California and our local community thereby highlighting the value that our campus offers as a regional partner and that our students’ academic degrees provide in preparing students to solve both the immediate problems we face today and the unanticipated problems of tomorrow.

To achieve these ends and facilitate faculty communication across disciplines, ORSP invites faculty to submit research/creative activity proposals that bring together expertise from across colleges and disciplines to name a problem that confronts California and/or our region and to identify means to solutions or responsive acts of the imagination that will take us toward a transformed future. The submission should include a statement of interest that identifies the faculty participants, the disciplinary areas included (three or more disciplines across two or more colleges) and the project being proposed. Submissions are due by September 5, 2022. ORSP will use the submissions to facilitate collaboration meetings, resource discussions with ORSP team members, campus forums for spotlighting projects and expanding collaborations where desired, and planning a year-end CSUF Campus and Neighbors Titan Thinking Together Conference. Please visit InfoReady for more details and submission.
### March 2022 Notices of Awards and Supplements

CSUF received notification of 9 new awards or fully negotiated contracts for $1,887,566 in March.

### Hanover Research Alerts

As part of CSU Fullerton’s partnership with Hanover Research, faculty have access to resources to support their grant seeking efforts.

- **Grants Alerts**: Weekly grant solicitations from federal agencies and select private foundations. Alerts are broken up into research and programmatic grant opportunities in the Higher Education, Health, and K-12 sectors.
- **Grants Calendars**: Specialized calendar bi-weekly calendar which maps out grant opportunities of interest to different focus areas.

You can [register](#) to receive Hanover’s weekly grant alerts (research and programmatic), monthly funding calendars, and quarterly webinar invitations and opt in to the content of greatest interest.
FDC-ORSP Faculty Fellow/Coordinators
Kathleen Preston, the FDC-ORSP Quantitative Research Support Coordinator/Fellow and Lucia Alcalá, the FDC-ORSP Qualitative Research Support Coordinator, will work with faculty across colleges and disciplines.

- For those at the beginning stages of a research program, they will review your current research questions or hypotheses and provide feedback on which analytic technique is most appropriate.
- For those with data collected, Professor Preston and Dr. Alcalá will aid with implementing techniques to analyze collected data and provide guidance when interpreting the results.
- For scholars who have received suggestions in a Revise & Resubmit response, they can work with you to incorporate reviewer feedback for resubmission.

Faculty at all levels from any college or department are welcome to contact Professor Kathleen Preston or Professor Lucia Alcalá by email to discuss your specific needs and objectives. Appointments are available by Zoom.

ORSP Fellow Helps Faculty Refine Manuscript
Faculty who would like assistance editing or revising research articles or other short manuscripts can consult with inaugural Scholarly Publication Faculty Fellow, Dr. Carrie Lane (Professor, American Studies). Since March, Lane has worked with more than fifty faculty across CSUF to help proofread and revise their manuscripts for submission (or re-submission) to scholarly journals. She offers feedback on readability, organization, and technical issues (grammar, punctuation, etc.) and is happy to assist with shortening works to meet maximum page requirements. If you’d welcome a second set of eyes on a piece you're working on, you can reach Professor Lane at writesupport.spff@fullerton.edu. Appointments are available in person and by phone and Zoom.

Compliance Electronic Submission Process and Training | Cayuse IRB, IACUC and IBC
Zoom Training Workshops are available with the Compliance staff to summarize the Cayuse IRB, Cayuse IACUC, or Cayuse IBC electronic submission processes, and provide advice on how to create an account under Cayuse, how to submit applications and renewals, and how to amend existing protocols. The Cayuse system is expected to streamline the compliance application process and provide faculty with a user-friendly platform to upload their initial applications, amendments, and de novo renewals, as well as facilitate reviews, amendments and approvals.

To schedule your one-on-one Zoom meeting, email irb@fullerton.edu for human subjects research, iacuc@fullerton.edu for animal research, or ibc@fullerton.edu for biosafety research.

For human subjects research, faculty are welcome to share this information with their students who can also contact the compliance office for one-on-one trainings to assist them in navigating through the Cayuse IRB system.

Full-Review IRB Submission Deadlines
Exempt and Expedited applications (studies with minimal risk) can be submitted via the Cayuse IRB online submission website. These are reviewed and approved on an ongoing basis.

Protocols that involve more than minimal risk or involve working with vulnerable populations will be assigned to an IRB monthly Full-Review meeting. CSUF will continue to host these monthly meetings with the committee via Zoom. Visit the CSUF IRB web page for additional information regarding the full review committee meeting dates and review process.
