Special Instructions for Downloading Excel Spreadsheets – Clear your cache and cookies.

After you perform any of these configuration changes outlined in the following pages, please clear your cache and cookies and close all browser sessions so that your changes will take effect.

Internet Explorer 7.0, go to Tools > Internet Options > Browsing History > Delete. Next, click on the “Delete Files” button and the “Delete Cookies” button.

Internet Explorer 6.0, go to Tools > Internet Options. Under Temporary Internet Files, click on “Delete files” and then click “ok”. Next, also click on “Delete Cookies” and click “ok.”

Firefox (PC), go to Tools > Options > Privacy > Show cookies > Remove cookies

Firefox (Mac), Launch Fire Fox, go to the top menu and select Firefox > Preferences > Privacy > Show Cookies > Remove all cookies. Then go to Tools > Clear Private Data, select cache and cookies then click "clear private data now"

Safari (Mac), Launch Safari, go to the top menu and select Safari > Preferences > Security > Show Cookies > Remove cookies. Next, select Safari > Empty Cache

PC Users

Unable to download Excel File because of pop-up blockers

If you click on the Excel icon and nothing happens, you may have a pop-up blocker issue. Many users have the pop-up blocker turned on as a security feature. In order to successfully download an Excel spreadsheet from the Faculty Center, please do the following:

INTERNET EXPLORER USERS

Change your local intranet settings

Step 1

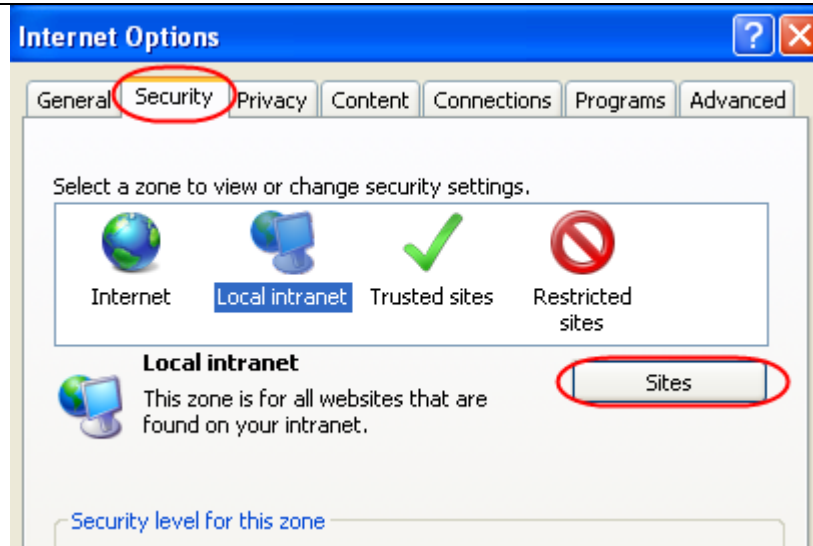

In your internet browser menu, go to Tools >Internet Options

Step 2

Click the Security Tab and select "Local Intranet"

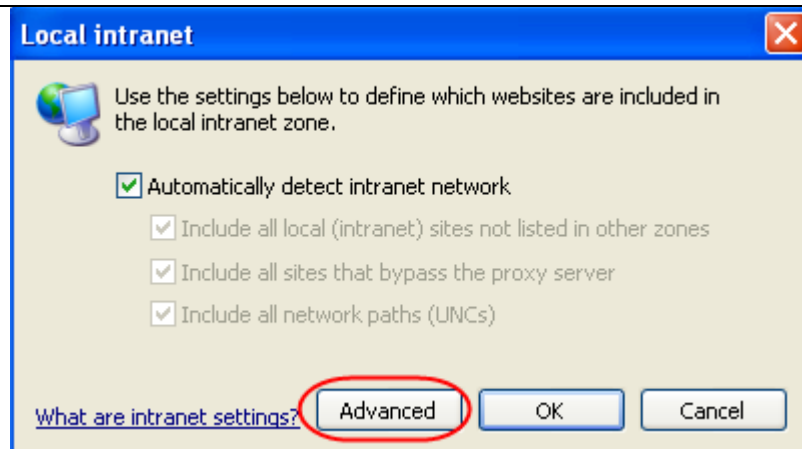

Step 3

Click Sites

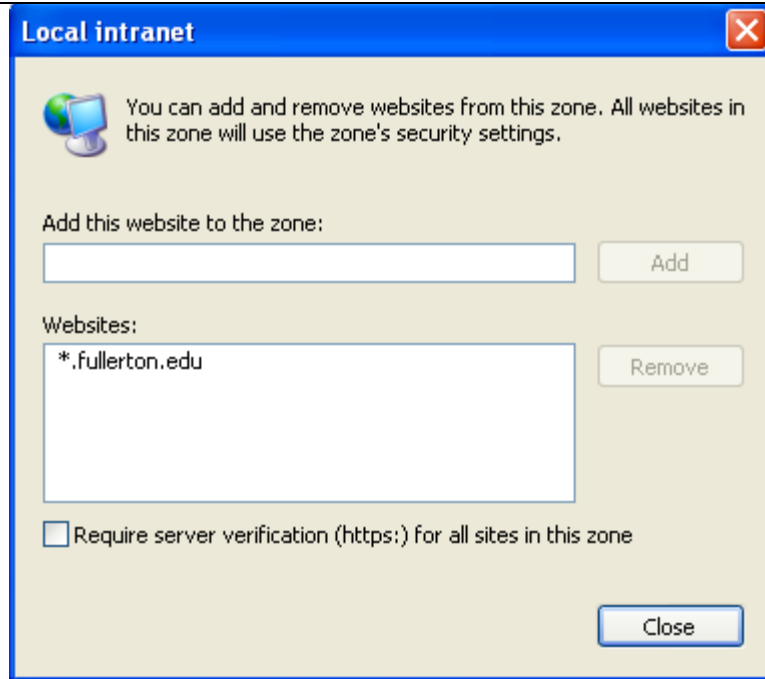

Step 4

Click "Advanced"

Step 5

Add *.fullerton.edu to the Local Intranet zone. Exit by clicking “close” and “ok” several times.

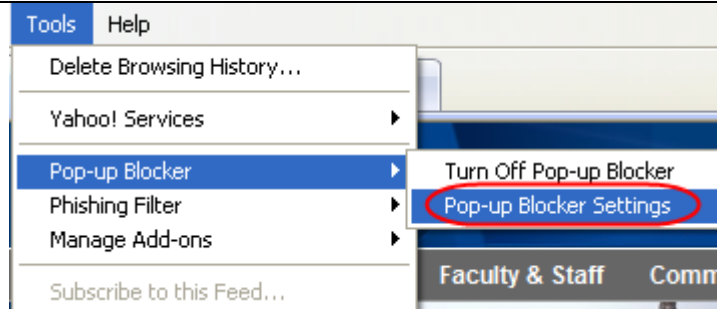

Allow pop-ups from cmsweb.fullerton.edu

INTERNET EXPLORER USERS

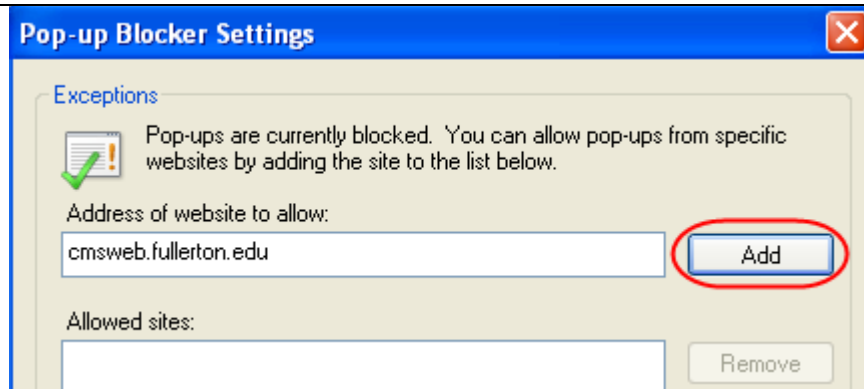

Step 1

Go to Tools > Pop-up Blocker > Pop-up Blocker Settings.

Step 2

Type cmsweb.fullerton.edu and click “Add.”

FIREFOX USERS

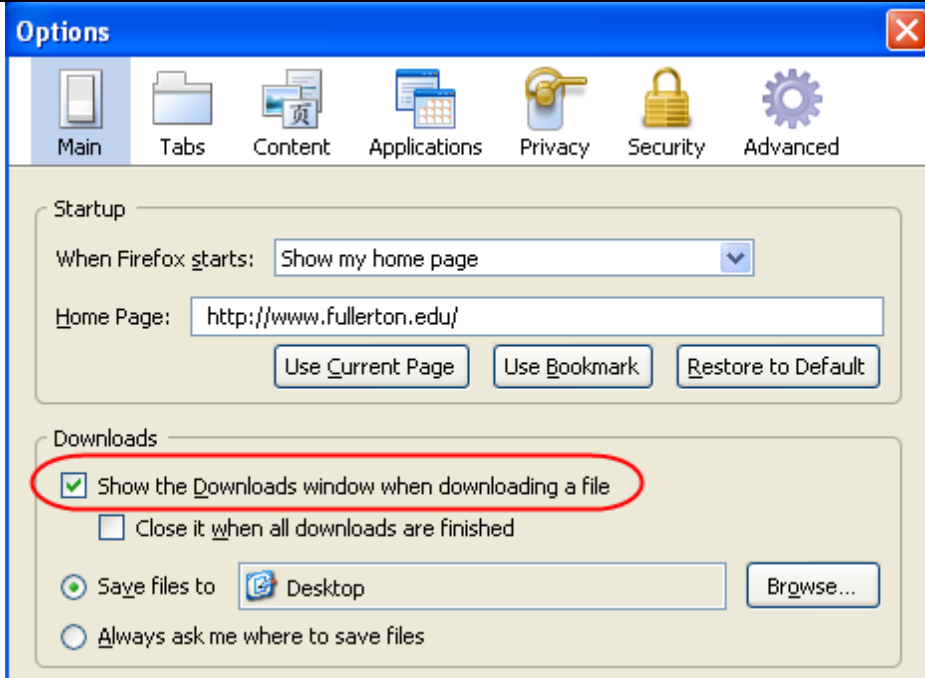

Step 1

Go to **Tools** and click on **Options**.

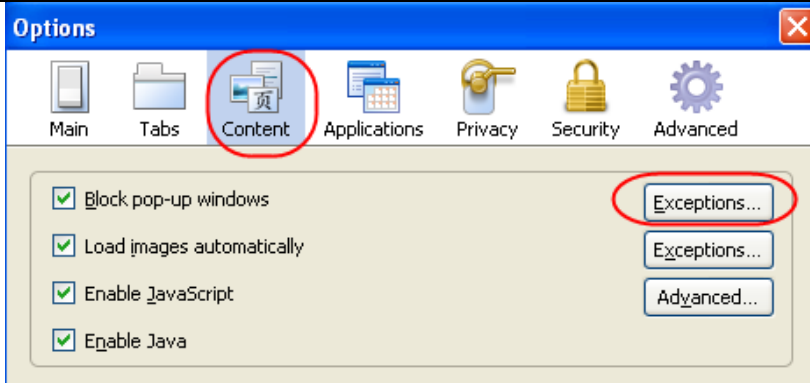

Step 2

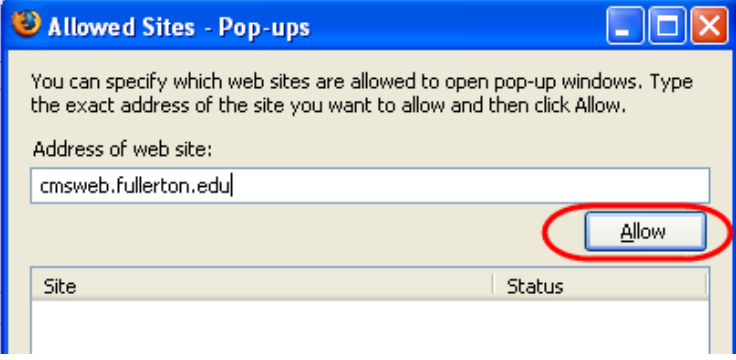

Under “**Main**” make sure that the “Show the Downloads window when downloading a file” is checked.

Step 3

Go to **Content** and click on **Exceptions**.

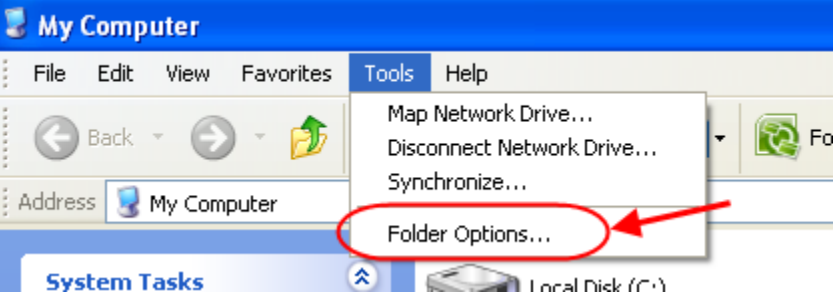

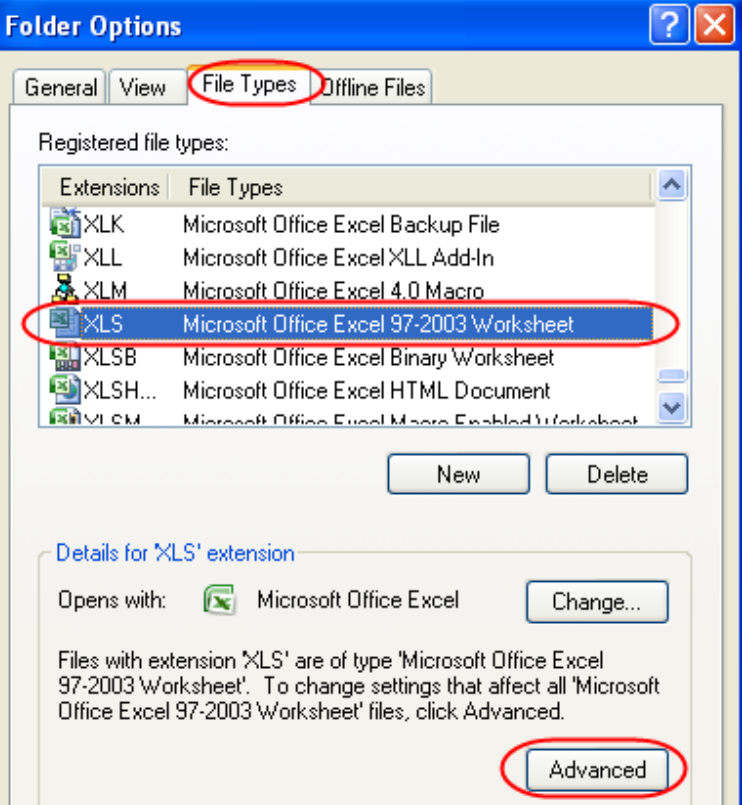

<p>Step 4 Add cmsweb.fullerton.edu to allowed sites.</p>	
---	--

Excel file displays as a html document instead of opening in Excel

If you are using a PC and you experience having the Excel download display in the web browser as an html document instead of opening up in the Excel application, use these instructions.

<p>Step 1 Open My Computer on your desktop.</p>	
---	---

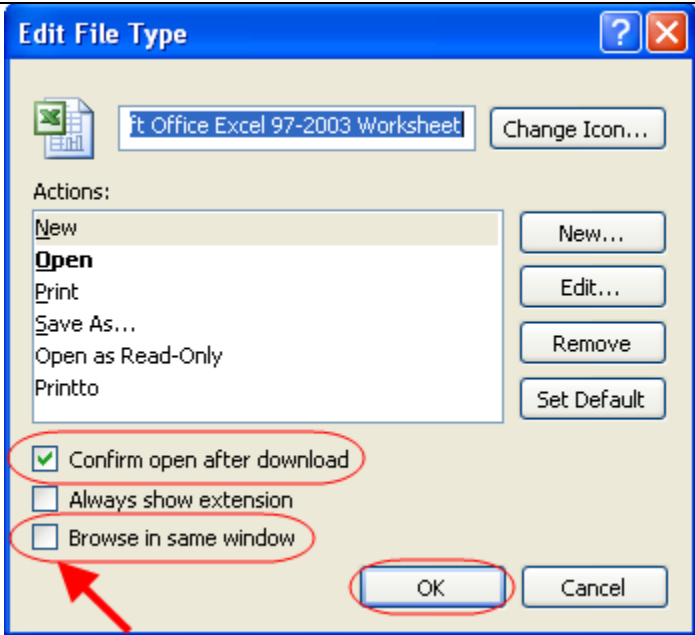

<p>Step 2 Open the Tools menu. Open Folder Options.</p>	
--	---

<p>Step 3 Click the File Types tab. Highlight the XLS Microsoft Excel Worksheet line from the Registered File Types list and click the Advanced button.</p>	
---	--

Step 4
 In the **Edit File Type** box, if "**Browse in same window**" has a check mark, remove it.
 Make sure that "**Confirm open after download**" has a check mark.

Click **OK**.

Click **Close**.

For Excel 2007, the message below will appear when you download your Excel file. This is an Office 2007 Security feature. Press "Yes" to open the file.

Mac Users

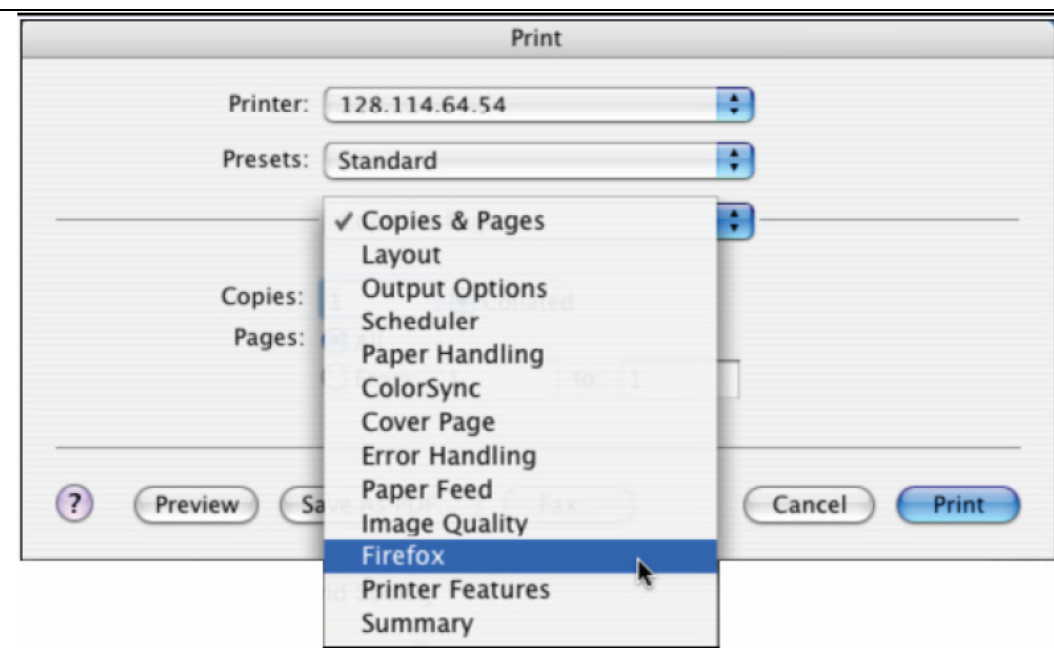

Printing the Class Roster

If you are unable to print all the pages of the "printer friendly version" of the class roster, follow these directions.

Step 1
 Click anywhere within the page or section of the page you want to print.

Step 2
 Under File menu, select PRINT. The Print window appears.

Step 3
 From the Copies & Pages drop-down menu, select the browser you are using (Netscape, Mozilla, or Firefox). The print options window appears.

Step 4

In the Frames section, click the button next to "The selected frame."

Step 5

Click Print.

Configuring pop-up blockers for Mac (Safari and Firefox)

If you click on the Excel icon and nothing happens, you may have a pop-up blocker issue.

Fire Fox 1.0 and 2.0

Step 1

Launch Firefox.

Step 2

Click "Firefox" in the top menu.

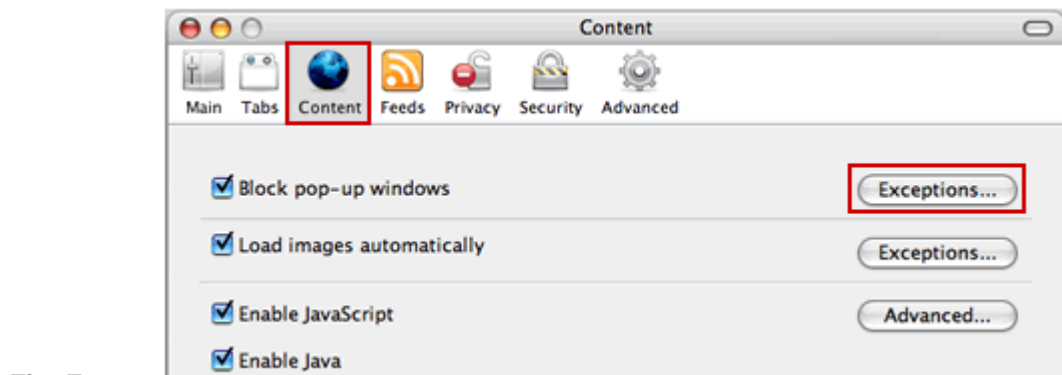

Step 3

Click the "Preferences" item on the menu.

Step 4

Click the Globe icon. In **Firefox 2.0** this is called "Content". In **Firefox 1.0**, this is called "Web Features".

Fire Fox 2.0

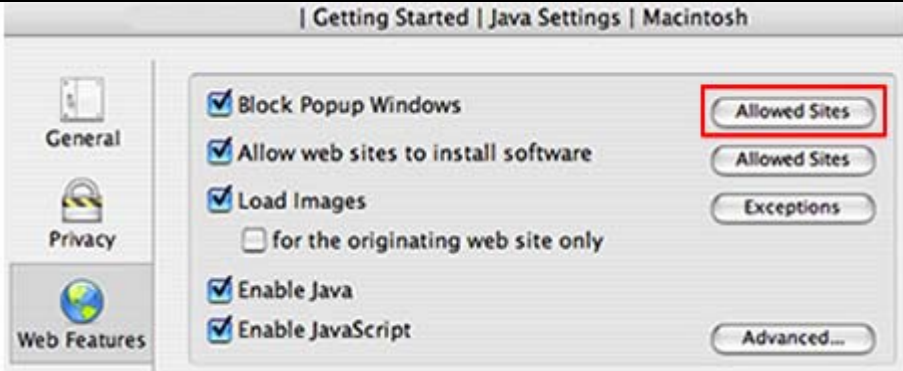

Step 5

Ensure that the check

box labeled "Block Popup Windows" is checked.

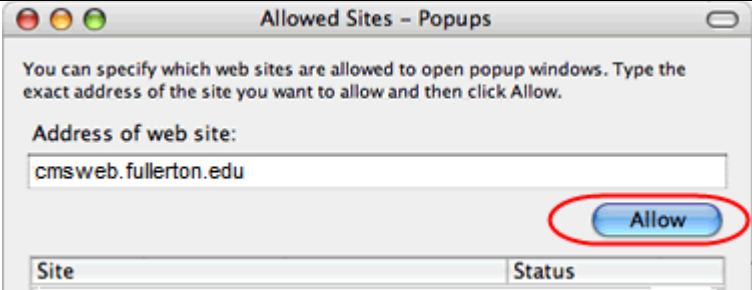

Step 6
Firefox 2.0 users, click the "Exceptions..." button. **Firefox 1.0** users, click the "Allowed Sites" button.

Fire Fox 1.0

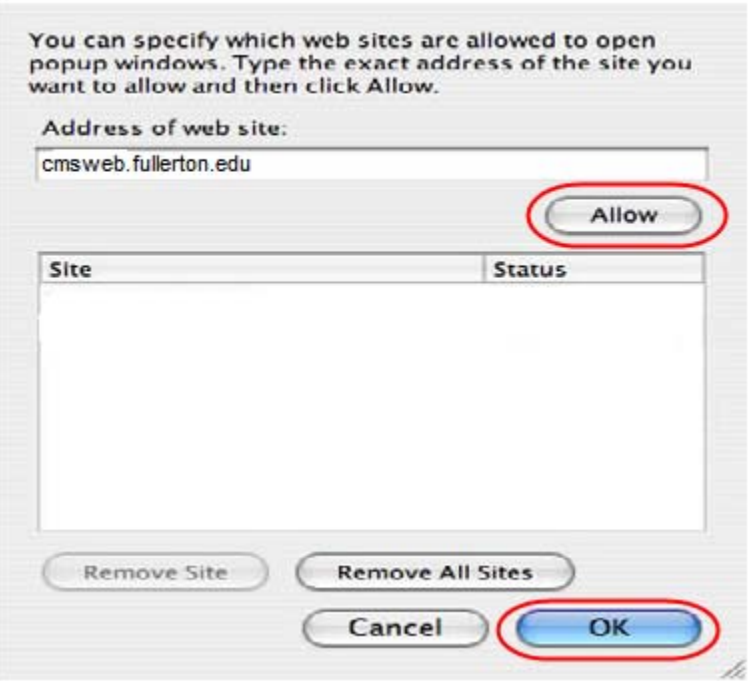

Step 7
 Type cmsweb.fullerton.edu in the "Address of web site" text box. Click "Allow".

Fire Fox 2.0

Step 8
Firefox 2.0 users can simply close this "Allowed Sites - Popups" window.
Firefox 1.0 users, click "OK" to save your changes. Close the Firefox "Preferences..." window.

Fire Fox 1.0

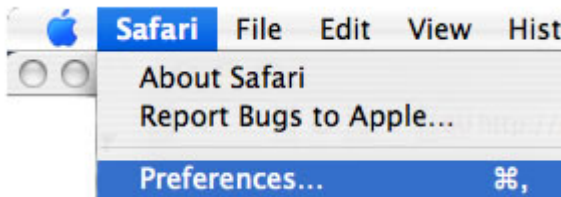

Safari 2.0 and 3.0

Step 1
 Launch Safari.

Step 2
 Click "Safari" in the top menu.

Step 3
 Click the "Preferences" item in the list.

Step 4

Click the Security icon in the menu.

Step 5

Ensure that the “Block Pop-up windows” is NOT checked.
