This constituency shall contain the President, Provost, Vice Provost, Vice Presidents, Associate Vice Presidents except in Student Affairs, College and Library Deans, Associate Deans, Assistant Vice Presidents in the Divisions of Academic Affairs and Information Technology, University Counsel, University-Controller, Chief of Police, and any administrators with academic standing.

5. No basic constituency shall be of such a size that it is entitled to fewer than one or more than five seats on the Academic Senate. If it is necessary, in order to conform to the size limitations, the Elections Committee shall combine or divide basic constituencies subject to Academic Senate approval.
6. When the status of any member of the Academic Senate electorate is in doubt, the Elections Committee shall place that member in an appropriate constituency, subject to Academic Senate approval.

C. NOMINATION PETITION PROCEDURES.

1. The Elections Committee shall determine the allocation of seats to the various constituencies using the Method of Equal Proportions. Allocation will be based upon constituency populations as of the fall census date.

2. At least two months before the end of the spring semester of each year the Elections Committee shall provide the members of the individual constituencies with the following:
 - a. A notice of the number of positions to be filled; and
 - b. All information and deadlines pertaining to the election.
3. Nomination shall be by petition, which shall specify the seat being sought. Each petition shall be signed by at least ten Academic Senate electorate members and by the candidate, whose signature indicates a willingness to serve. There is no limit on the number of different petitions an Academic Senate electorate member may sign. The Elections Committee shall have power to determine the form, deadlines for filing, and other particulars of the petitions. The Elections Committee shall place on the ballot the names of all qualified Academic Senate electorate members for whom petitions are filed on or before the deadline.
4. Part-time faculty members of the Academic Senate shall be nominated by the part-time electorate as defined in Article II, Section 7, of the Constitution. The Elections Committee shall place the names of all qualified staff candidates on a ballot for distribution to the staff electorate.

D. VOTING PROCEDURES.

1. Voting shall be by secret ballot. No voter may cast more than one vote for each available seat. Voters may not cast more than one vote for a single candidate. Candidate names shall be placed on the ballot in a random order as determined by the Elections Committee. Academic Senate electorate members may write in the names of additional candidates on the ballot, and such write-in votes shall be counted. If there is no candidate listed for an open seat on the ballot, then that seat shall remain vacant until the next Special Election.
2. In each group of candidates, whether running at-large or for a constituency, beginning with those receiving the greatest number of votes and continuing downward, the same number of candidates shall be elected as the number of positions to be filled. In each group of those elected, those receiving the smaller number of votes shall receive the shorter terms, if any. Ties shall be decided by lot among those tied.
3. Each member of the Academic Senate full-time electorate shall be entitled to vote for constituency member(s) representing the member's own constituency and for the members at-large.
4. A vacancy in an at-large seat shall be filled by electronic balloting; the person elected shall serve the balance of the term. For each candidate or issue to be voted upon, all options must be simultaneously visible to the voter. The order of the names of the candidates shall be reset for each voter.
6. One week prior to the election, the Elections Committee will send an electronic announcement. The announcement will explain the electronic voting procedure and provide the names of contacts to be called for help or questions. The announcement will explain how to access the ballot from off-campus via the Internet. Voting procedures and names of contacts to be called for help or questions will also be available on the electronic ballot.
7. A list of eligible voters, grouped by department, within each constituency, will be available electronically prior to the election.
